Women Leading Justice Elaine Gunnison, Jacqueline B. Helfgott, 2018-11-02 The women's movement and increasing social consciousness regarding gender disparity and discrimination has helped to make gains over the past several decades to reduce gender disparity for women in the workplace However gender discrimination and disparity continue to exist Women continue to receive lower wages and fewer opportunities for promotion and professional advancement and this is particularly true in male dominated professions such as criminal justice Building on original qualitative data this book explores the experiences of female criminal justice professionals who have risen to the top of their professional ladders The book includes first hand narrative accounts of high ranking successful professional women working across a range of fields such as policing courts corrections victim and restorative justice services and criminal justice research agencies in the United States and Canada This book highlights the barriers that successful female criminal justice professionals have to overcome to obtain their positions and identifies key themes that these women see as having allowed them to break through those barriers and to navigate their professional environments This book provides students interested in entering the criminal justice field and working professionals already in the field with knowledge about women who have risen through the ranks and up the professional ladder to break through the glass and the brass ceilings of their profession

Policing Women Janis Appier, 1998-01-12 Many of us take the presence of policewomen on patrol and in investigative roles for granted Realistic dramas and comedies in the movies and on television show women officers performing the same duties as men on the force This visibility tells us nothing about the hostility and controversy that have beset policewomen since they were first hired by police departments in the 1910s Author Janis Appier traces the origins of women in police work explaining how pioneer policewomen's struggles to gain secure footholds in big city police departments ironically helped to make modern policework one of the most male dominated occupations in the United States With a new vision of non coercive police work and crime prevention Progressive reformers exerted political and social pressure to create positions for female officers dedicated to guiding and protecting juveniles and women Women reformers pointed to changing sexual mores among working class female youth to emphasize the need for a new approach to policing

The policewomen who undertook the work of counseling sexually active teenage girls and their families saw themselves as helping young people achieve moral equilibrium during a period in which standards of context were in flux In the Los Angeles Police Department the first to hire women this social work was primarily the responsibility of the City Mother s Bureau in other major cities policewomen s roles were similarly constructed as maternalistic Scrutinizing case records public statements and departmental policies governing policewomen Appier shows how female officers handled the complex gender politics of their work with the public and within their departments Appier reveals that many of these pioneering policewomen succeeded in expanding the scope of policework and carving out a rewarding professional niche despite continued attempts to oust them or limit their sphere of action But this advancement was short lived within a generation a masculinized model of crime fighting took hold and policewomen s authority eroded
