

AN INTERDEPENDENT WORLD ECONOMY

The increasing interdependence of countries in the world economy has made the problems facing policy makers more difficult.

We used to be able to think of the United States as a relatively self-sufficient region.

Forty years ago, economic events outside U.S. borders had relatively little effect on its economy. This situation is no longer true. The events of the past four decades have taught us that the performance of the U.S. economy is heavily dependent on events outside U.S. borders.
