

Dedicated policymakers, educators and parents have worked with the New Hampshire Department of Education (NH DOE) over the past several years to ensure that the state develops and implements strict privacy laws and regulations regarding the protection of individual student information. With the NH DOE's transition to a new mathematics and English language arts statewide assessment (replacing the New England Comprehensive Assessment Program or NECAP for these content areas), increased dialogue regarding privacy and security of data is taking place. This dialogue is important so that we can reflect on the current laws and practices in place that will ensure all possible measures are taken to protect student identity, and at the same time, allow for educators to understand how to improve instructional practices for all students.

The following frequently asked questions attempt to answer many of the concerns that the NH DOE has received. This document will be updated as further questions require reflection.

Questions	Answers
How does the state of New Hampshire protect student identifiable data?	New Hampshire has two laws specifically intended to protect student privacy: RSA Section 103-C:11 and 103-E:3. RSA Section 103-C:11 Anonymity of Pupil Assessment Results; Parental Authorization Required. Individual assessment scores contained in the statewide assessment results, reports, or other evaluation materials shall be deleted for the purposes of record maintenance and storage of such results or reports at the Department of Education, unless a parent or legal guardian provides written authorization otherwise, or as required under federal law. Individual pupil results shall be made available to a parent, a legal guardian, or the pupil's school in accordance with the Family Educational and Privacy Rights Act, 20 U.S.C. 1232g. RSA Section 103-E:3 (Unique Pupil Identification) (see the full section at the end of this document) (a) No personally identifiable information about a pupil including name and social security number, shall be collected or maintained by the state in such a manner as to allow such information to be connected with the unique pupil identifier. Under no circumstances shall the department of education obtain or use a social security number as an identifier for any pupil. The department shall not use unique pupil identifiers except in connection with the data mentioned and such use shall not be accessible to the public. (c) The unique pupil identifier shall be requested and maintained by the early childhood program, district, or postsecondary institution. The unique pupil identifier shall remain in the pupil's file throughout his or her academic career in New Hampshire.

Policymakers Views Of Student Assessment

David J. Johnson

Policymakers Views Of Student Assessment:

Policymakers' Views of Student Assessment Lorraine McDonnell, 1994 This report examines the expectations of federal and state policymakers regarding new forms of student assessment and their judgments about the feasibility of assessment based reforms *Large-scale Assessment Programs for All Students* Gerald Tindal, Thomas M.

Haladyna, 2012-12-06 The need for a comprehensive volume that reviews both the processes and issues involved in developing administering and validating large scale assessment programs has never been greater These programs are used for many purposes including instructional program evaluation promotion certification graduation and accountability One of the greatest problems we face is how to deal with special needs and bilingual populations Examining these processes and issues is the mission of this book It is organized into the following five sections Introduction Validity Issues Technical Issues Implementation Issues and Epilogue Each chapter follows a common structure Overview of critical issues review of relevant research descriptions of current assessment methodologies and recommendations for the future research and practice Written by nationally recognized scholars Large Scale Assessment Programs for All Students Validity Technical Adequacy and Implementation will appeal to anyone seriously involved in large scale testing including educators policymakers testing company personnel and researchers in education psychology and public policy **Thing Knowledge** Davis

Baird, 2004-02-10 Davis Baird's *Thing Knowledge* uses instruments to do philosophy Grappling with a wonderful assortment of objects from antique orreries to modern spectrographs he draws the reader deep into fascinating questions about the nature of knowledge All too often the knowledge Baird pursues here has been obscured by accounts that reduce understanding to theory By contrast in this rich text Baird shows the myriad of ways that models and devices do work in science by representing by manipulating by measuring and by calculating This is a book as lucid on the semantic account of theories as it is on the inner workings of the cyclotron it is a book that brings the laboratory to philosophers and philosophy into the laboratory Peter Galison author of *Einstein's Clocks Poincaré's Maps Empires of Time* Davis Baird has given us something new and demanding to think about namely in addition to propositional knowledge he argues there is thing knowledge That is scientific instruments embody or encapsulate knowledge in ways that most often not transparent In making his case Baird forces us to reconceptualize how we go about doing science and how to understand the product of human labor both intellectual and manual *Thing Knowledge* is must reading for anyone interested in the development of science and its attendant technologies Joseph C Pitt author of *Thinking About Technology Foundations of the Philosophy of Technology* Over the years the new frontier in philosophy of science has been on logic then on theories to most recently on models and experimentation Davis Baird goes one step further and considers the immediate kind of knowledge embodied by scientific instruments and devices His book is highly thought provoking and will become a classic source Eric Scerri UCLA Department of Chemistry and Biochemistry and editor of *Foundations of Chemistry* From the air pump to the dynamo to the

cyclotron machines have played key roles in the development of scientific knowledge Here for the first time Davis Baird looks at those machines as actual forms of scientific knowledge Baird moves adeptly from historical case study to philosophical explanation in this convincing study of the material culture of science Ann Johnson Department of History Fordham University

Educational Assessment and Inclusive Education Christian Ydesen, Alison L. Milner, Tali Aderet-German, Ezequiel Gomez Caride, Youjin Ruan, 2023-01-18 This book brings together policymaker and practitioner knowledge experiences and perspectives on the interaction between the assessment and inclusion agenda to the fore The book's analysis is built on comparative qualitative data from five different countries on four continents Argentina China Denmark England and Israel These countries have been chosen for their distinctive and even contrasting education policies sociocultural and economic circumstances and variations in performance across supranational and national standardised student assessments In addressing these specific contexts the book provides insights into the pitfalls and synergies which emerge as key stakeholders attempt to mediate these two educational concerns in both policy and practice

Resources in Education, 1995 *The Politics of Assessment* Mary Lee Smith, 1996 **Making Sense of Test-based Accountability in Education** Laura S. Hamilton, Brian M. Stecher, Stephen P. Klein, 2002 Test based accountability systems that attach high stakes to standardized test results have raised a number of issues on educational assessment and accountability Do these high stakes tests measure student achievement accurately How can policymakers and educators attach the right consequences to the results of these tests And what kinds of tradeoffs do these testing policies introduce This book responds to the growing emphasis on high stakes testing and offers recommendations for more effective test based accountability systems

Standards-led Assessment Robert L. Linn, 1997 *Assessment As Learning* Lorna M. Earl, 2003-05-15 Learn to embrace assessment not just as a tool for student evaluation but as a valuable strategy for everyday classroom learning

Uses and Misuses of Data for Educational Accountability and Improvement Joan L. Herman, Edward Haertel, 2005 The National Society for the Study of Education is an organization of education scholars professional educators and policymakers dedicated to the improvement of education research policy and practice Founded in 1901 by a small group of distinguished educators including John Dewey Nicholas Murray Butler and Charles Hubbard Judd NSSE is the oldest national educational research organization in the United States The mission of the National Society for the Study of Education is to investigate enduring and contemporary problems disseminate the findings of its investigations and engage members of the education community in study and discourse around those findings for the improvements of research policy and practice One important way the Society accomplishes this mission is through the publications of its two volume yearbooks now in their 104th year Each volume of a yearbook deals with a separate topic of current concern to educators With knowledgeable scholars and practitioners as contributing authors the yearbooks are reliable and authoritative sources of information on timely educational topics Some yearbooks have become landmark publications in the field with which they deal As the

Society moved into its second century it acknowledges its indebtedness to the numerous authors and editors whose work has made the yearbooks significant contributions to the study of education during the past century NSSE looks ahead to fostering stronger relationships between researchers educators and policymakers with the goal of improving education for the nation s childrens and youth through continued collaborative study of educational problems Membership in the Society is open to all individuals who desire to receive the Yearbooks regularly Members include teachers administrators researchers other educational personnel and policymakers at all levels of education in the United States Canada and overseas Teachers and the Process of Assessing Students in the Classroom John Edward Shanahan,2001 **Politics, Persuasion, and Educational Testing** Lorraine McDonnell,2004 *Administrators' and Policy Makers' Views of Community Education* Larry E. Decker,1977 **The Politics of State Testing** Lorraine McDonnell,1997 **Preparation for State-mandated Testing** David J. Johnson,2005 Curriculum Management for Educational and Social Service Organizations Fenwick W. English,Robert Lowell Larson,1996 Future-oriented science education for agency and sustainable development Antti Laherto,Olivia Levrini,Sibel Erduran,2023-03-31 Education in a New Era. 2000 ASCD Yearbook Association for Supervision and Curriculum Development, Alexandria, VA.,2000 This book presents the writings of education experts who were asked to reflect on the 20th century and then predict what educators could expect in the years ahead For example the 21st century will likely see new instructional models that attempt to integrate three areas of knowledge experimental research on instruction what is known from cognitive psychology about the nature of learning and what can be gleaned from research on brain functioning Greater depth and less superficial coverage will probably characterize the millennial curriculum and society can expect to see network tools and digital devices that are designed specifically for education through alliances of researchers practitioners and commercial partners It can be assumed that technological change will continue to accelerate and that such changes will produce social political and economic pressures that will demand responses from educational institutions Some of the specific topics that are addressed here include governing the American dream of universal public education the social construction of difference and the quest for educational equality teaching and teacher development 20th century advances in instruction a curriculum for the new millennium assessment in education the evolving science of learning technology in America s schools before and after Y2K and progressive education in the 21st century Includes an index Each article contains references RJM Critical Issues in Educational Leadership Michael Jazzar,Robert Algozzine,2006 Critical Issues in Educational Leadership is a unique and original collection of essay like chapters that present a straightforward objective analysis of different perspectives on the major issues facing educational leadership professionals This comprehensive text provides multifaceted and balanced analysis of the major conceptual practical and potential issues facing all individuals interested in educational leadership Each chapter presents perspectives derived from years of research and practical experience that address problems of effective educational leadership

realistically Students are challenged to view educational leadership as a mix of theory process and contemporary practice that requires continuing systematic analysis and review Special Features Comprehensive critical issues presented in multidimensional original essays developed by the authors allow students and faculty to engage in a meaningful way Many problems concerns and dilemmas are illustrated in a thought provoking fashion to stimulate debate and discussion and provide direction for continuing dialogue that will foster professional development Important topics are presented throughout the book such as no child left behind ISSLC standards data driven decision making full service schools and shattering the glass ceiling that represents the range of crucial concerns that school leaders face today Concrete examples that show how theory translates into practice are included in all chapters Additional resources for instructors using this text are available in the Educational Leadership area at www.ablongman.com The resources on the site enhance and extend the richness of Critical Issues in Educational Leadership with attractive and effective PowerPoint presentations and a meaningful test bank of questions that are differentiated by levels of mastery Access to the site is available to adopters who request an access code from their local representative Package this text with MyLabSchool a powerful set of online tools that bring the classroom to life Visit www.mylabschool.com for more information
