## **Political Theory And The Displacement Of Politics Contestations Ser:**

Political Theory and the Displacement of Politics Bonnie Honig, 2023-03-15 Political Theory and the Displacement of Politics originally published in 1993 has been called a founding text of agonism which treats political contestation not as a regrettably necessary way to correct political imperfections but as a necessary sometimes joyful feature of democratic life As Bonnie Honig writes in the preface to this thirtieth anniversary edition the agonism that informs this book is democratic it is committed to shared spaces and relational practices in which diverse groups and individuals set and reset the terms of living together as equals By rethinking the established relation between politics and political theory Honig argues that political theorists of opposing positions often treat political theory less as an exploration of politics than as a series of devices for its displacement She characterizes Kant Rawls and Sandel as virtue theorists of politics arguing that they rely on principles of right rationality community and law to protect their political theories from the conflict and uncertainty of political reality Drawing on Nietzsche and Arendt as well as Machiavelli and Derrida Honig instead explores an alternative politics of virtue which treats the disruptions of political order as valued sites of democratic freedom and individuality **The Palgrave**

**Living Ethically, Acting Politically** Melissa A.

Orlie, 2018-09-05 How can we conceive of freedom and responsibility when our power is limited and we are subject to the forces of society Melissa A Odie asks what it means to live responsibly amid historical harm and wrongdoing in the wake of slavery and genocide or in the face of severe resource asymmetries By connecting resistance to evil with reflections on the nature of power and political action Odie reveals the daily ways people commonly exercise power inflict harm and show themselves capable of actions that transform both selves and the world Viewed in this context truly ethical political action may appear miraculous but could happen at any time Odie asks what it means to live freely when advantages are distributed disproportionately according to race gender class culture and religion What do freedom and responsibility entail when for example creating a home for oneself implies social and economic commitments that render others homeless To address these questions Orlie links diverse intellectual concerns and constituencies in the social sciences and humanities offering original interpretations of Hannah Arendt Michel Foucault and Thomas Hobbes She compares their thinking to that of the seventeenth century Quakers who found political possibilities in the powers they called spirit in the world and in themselves

**Contested Territory** Anna Jurkevics, 2025-04-01 Territorial sovereignty the unilateral right of states to control their land and borders is a fundamental ordering principle of contemporary politics influencing mobility settlement access to land and freedom It has long been assumed that democracies require such territorial mastery to achieve self determination without

interference But what if territorial sovereignty only serves the interests of conquerors and already powerful states A sharper view of land politics in the modern era shows that territorial sovereignty has not only been established through conquest but enables and encourages further forms of land monopolization theft and colonization Contested Territory argues that the perplexities of sovereignty should prompt us to explore alternative non sovereign territorial form capable of realizing the promise of democracy in the global age To bring the potential of contested territory into focus Jurkevics explores themes central to this tradition land sharing local land autonomy legal pluralism federation cosmopolitan membership and anti colonialism and probes their compatibility with democratic politics The author then charts normative foundations for a cosmopolitan democratic theory of territory Through a critical engagement with the thought of Hannah Arendt both her conceptualization of world building and her rejection of sovereignty this volume argues that it is both possible and desirable to decouple democracy and territorial sovereignty and that by doing so we can better respond to the border defying crises of the global age

**Postcolonial Legality: Law, Power and Politics in Zambia** Jeremy Gould, 2023-03-24 This book interrogates the ideology and practices of liberal constitutionalism in the Zambian postcolony The analysis focuses on the residual political and governmental effects of an imperial form of power embodied in the person of the republican president termed here prerogativism Through systematic long term ethnographic engagement with Zambian constitutionalist activists lawyers judges and civic leaders the study examines how prerogativism has shaped the postcolonial political landscape and limited the possibilities of constitutional liberalism This is revealed in the ways that repeated efforts to reform the constitution have sidelined popular participation and thus failed to address the deep divide between a small elite stratum from which the constitutional activists are drawn and the marginalized masses of the population Along the way the study documents the intimate interpenetration of political and legal action and examines how prerogativism delimits the political engagements of elite actors Special attention is given to the reluctance of legal activists to engage with popular politics and to the conservative ethos that undermines efforts to pursue a jurisprudence of transformational constitutionalism in the findings of the Constitutional Court The work contributes to the rising interest in applying socio legal analysis to the statutory domain in postcolonial jurisdictions It offers a pioneering attempt to deconstruct the amorphous and ambivalent assemblage of ideas and practices related to constitutionalism through detailed ethnographic interrogation It will appeal to scholars students and practitioners with an interest in theorizing challenges to political liberalism in postcolonial contexts as well as in rethinking the methodological toolbox of socio legal analysis
