Political Economy Of Poverty Equity And Growth Brazil And Mexico:

The Political Economy of Poverty, Equity, and Growth Angus Maddison, 1992 **Brazil and Mexico** Angus Maddison, 1992 Part of a series sponsored by the World Bank this volume focuses on the political history of Brazil and Mexico providing a concise account of the policies and outcomes relating to growth and distributional issues **The Political Economy of Poverty, Equity and Growth: A Comparative Study** Deepak Lal, H. Myint, Hla Myint, 1998-10-08 This wide ranging and innovative book synthesizes the findings of a major international study of the political economy of poverty equity and growth It represents an ambitious interdisciplinary attempt to identify patterns in the interplay of initial conditions institutions interests and ideas which can help to explain the different growth and poverty alleviation outcomes in the Third World Comparative Economics in a Transforming World Economy, third edition J. Barkley Rosser, Jr., Marina V. Rosser, 2018-01-26 An approach to comparative economic systems that avoids simple dichotomies to examine a wide variety of institutional and systemic arrangements with updated country case studies Comparative economics with its traditional dichotomies of socialism versus capitalism private versus state and planning versus market is changing This innovative textbook offers a new approach to understanding different economic systems that reflects both recent transformations in the world economy and recent changes in the field This new edition examines a wide variety of institutional and systemic arrangements many of which reflect deep roots in countries cultures and histories The book has been updated and revised throughout with new material in both the historical overview and the country case studies It offers a broad survey of economic systems then looks separately at market capitalism Marxism and socialism and new traditional economies with an emphasis on the role of religions Islam in particular in economic systems It presents case studies of advanced capitalist nations including the United States Japan Sweden and Germany alternative paths in the transition from socialist to market economies taken by such countries as Russia the former Soviet republics Poland China and the two Koreas and developing countries including India Iran South Africa Mexico and Brazil The new chapters on Brazil and South Africa complete the book s coverage of all five BRICS nations the chapter on South Africa extends the book s comparative treatment to another continent The chapter on Brazil with its account of the role of the Amazon rain forest as a great carbon sink expands the coverage of global environmental and sustainability issues Each chapter ends with discussion questions *Development Centre Studies Chinese Economic Performance in the Long Run, 960-2030 AD, Second Edition, Revised and Updated* Maddison Angus, 2007-09-28 This book uses a comparative approach to explain why China s role in the world economy has changed so dramatically in the last thousand years This edition has been revised and updated and Chapter 4 is new It concludes that China will resume its role as the world s largest economy by 2015 *Mexico Under Zedillo* Luis Rubio-Freidberg, 1998 Following a year of political and social upheaval Ernesto Zedillo Ponce was inaugurated as Mexico s president in December 1994 Soon after the collapse of the peso forced a reorientation of the country s policies and priorities

This text examines the move toward democracy during that time Institutional Design In New Democracies Arend Lijphart, 2018-10-08 This volume focuses on the relationship between the tasks of institutional design and the outcomes of the process of economic and political liberalization in Latin America and in Central and Eastern Europe The contributors emphasize the design of institutions to serve a market economy the design of electoral laws and the design of executive legislative relations Within this framework each chapter discusses the legacy of the pre existing authoritarian regime the range of preferences among various strategic actors with regard to the pace and mix of reforms and the consequences of final choices for the institutionalization of effective economies and the process of democratization Countries throughout Latin America and Central and Eastern Europe are moving from semi closed to open economies and from authoritarian to democratic political systems Despite important differences between the regions these transitions involve similar tasks the establishment of governmental institutions and electoral systems conducive to legitimation of the new and fragile democracies and expansion of the institutional infrastructure of a market economy This volume looks at both regions focusing on the relationship between the tasks of institutional design and the outcomes of the process of economic and political liberalization In particular the contributors emphasize the design of institutions to serve a market economy the design of electoral laws and the design of executive legislative relations Each chapter discusses the legacy of the pre existing authoritarian regime the range of preferences among various strategic actors the government state bureaucracies opposition parties and interest groups with regard to the pace and mix of reforms and the consequences of final choices for the institutionalization of effective economies and the process of democratization *Contours of the World Economy 1-2030 AD* Angus Maddison, 2007-09-20 This book seeks to identify the forces which explain how and why some parts of the world have grown rich and others have lagged behind Encompassing 2000 years of history part 1 begins with the Roman Empire and explores the key factors that have influenced economic development in Africa Asia the Americas and Europe Part 2 covers the development of macroeconomic tools of analysis from the 17th century to the present Part 3 looks to the future and considers what the shape of the world economy might be in 2030 Combining both the close quantitative analysis for which Professor Maddison is famous with a more qualitative approach that takes into account the complexity of the forces at work this book provides students and all interested readers with a totally fascinating overview of world economic history Professor Maddison has the unique ability to synthesise vast amounts of information into a clear narrative flow that entertains as well as informs making this text an invaluable resource for all students and scholars and anyone interested in trying to understand why some parts of the World are so much richer than others **The Repressed Economy** Deepak Lal, 1993 In this outstanding collection of essays on economic liberalization Deepak Lal one of the world's leading development economists questions why many developing countries have followed policies which have retarded both growth and equity before discussing why and how these policies have come to be reversed The Repressed Economy brings together Professor Lal's

most important work on economies that function unsatisfactorily because of government policies that distort the working of the free market He explains both why governments create these distortions and when if at all they are likely to heed the technocratic advice of the economist to eliminate or reduce them The theme of the repressed economy is explored throughout these essays which include applied studies of developing economies in Latin America the Philippines Kenya Brazil India and China The role of ideas interests and ideology are explored as is the importance of differences in initial resources Simple political economy models are developed to explain the actions of the governments concerned An intellectual biography is included which outlines how Professor Lal s practical experience in the Third World led him to become a neo liberal development economist *The political economy of poverty, equity, and growth : Costa Rica and Uruguay* Banco Mundial,1993 The Politics of Economic Growth in the Third World Jonathan Tabor Krieckhaus,2000 **Journal of Economic Literature** ,1993 **The Political Economy of Democratic Transitions** Stephan Haggard,Robert R. Kaufman,2018-06-05 In the last two decades there has been a widespread movement from authoritarian to democratic rule among developing countries often occurring against a backdrop of severe economic crises and the adoption of market oriented reforms The coincidence of these events raises long standing questions about the relationship between economic and political change In this book Stephan Haggard and Robert Kaufman explore this relationship addressing a variety of questions What role have economic crises played in the current wave of political liberalization and democratization Can new democracies manage the daunting political challenges posed by economic reform Under what economic and institutional conditions is democracy most likely to be consolidated Drawing on contemporary political economy and the experiences of twelve Latin American and Asian countries they develop a new approach to understanding democratic transitions Haggard and Kaufman first analyze the relationship between economic crisis and authoritarian withdrawal and then examine how the economic and institutional legacies of authoritarian rule affect the capacity of new democratic governments to initiate and sustain economic policy reform Finally the authors analyze the consolidation of political and economic reform over the long run Throughout they emphasize the relationship between economic conditions the interests and power of contending social groups and the mediating role of representative institutions particularly political parties **Gaia: ecological perspectives for science and society** ,2001 *The Economic Policy of the Brazilian Military Regime, 1964 to 1985* Jack Anthony Bucco,2002 **Index of Publications & Guide to Information Products and Services** World Bank,1995 The Journal of Developing Areas ,1994 *The Economic Development of Latin America in the Twentieth Century* André A. Hofman,2000 This book provides an assessment of Latin American 20th century economic performance from a comparative and historical perspective The author uses growth accounting methods and previously unavailable long term series data to present a comprehensive analysis of Latin American development over the course of the century The performance of Latin American economies over this period is compared to that of three groups of countries the advanced capitalist economies of France

Germany Japan The Netherlands UK and USA the newly industrialised economies of Korea and Taiwan and Spain and Portugal with which Latin America has historical ties This presents a long run comparative perspective of growth acceleration and slow down in Latin America The reasons for the comparatively poor or negative economic growth in the Lost Decade of the 1980s are examined as is the apparent economic recovery in the 1990s The author also reviews other problems associated with the Latin American economies including debt problems income inequality high inflation cyclical instability and political and policy instability and measures the ability of various countries to combat these challenges Finally the author analyses major stabilisation policies over the period and assesses their success This book will prove a valuable asset to students and scholars of Latin American economics international economics and development economics
