The Political Life of Children Robert Coles, 2007-12-01 A groundbreaking study of the impact of current events on the lives and minds of children from the Pulitzer Prize winning child psychiatrist Most parents teach their children the lessons and skills they need to function in the world while trying to shield them from the harsher realities of life But long before children are considered ready to face the complications of the real world they are learning truths and perspectives most adults imagine are beyond them Child psychiatrist and author of *The Spiritual Life of Children* Robert Coles traveled the globe for more than a decade from Northern Ireland to Nicaragua South Africa to Southeast Asia across the United States and beyond conducting in depth interviews with children about their cultures ideologies national pride and political knowledge He learned that the greater challenges traumas conflicts and issues of the world around them find their way into children's impressionable minds and play a crucial role in their development Robert Coles unique and groundbreaking research sheds much needed light on the psychology of childhood revolutionizing both professional and personal understanding of humans formative years Robert Coles is to the stories that children have to tell what Homer was to the tale of the Trojan War The New York Times Book Review [The Political Life of Children](#) Robert Coles, 1986 Robert Coles one of the most eminent child psychiatrists in the world spent over a decade researching this book and its companion volume *The Moral Life of Children* Coles visits children all over the world listening with willing ears and he captures their thoughts and feelings with remarkable sympathy As Coles demonstrates in this fascinating work children learn much more than we think they do about political issues While we have always taken it for granted that parents teach their children about language religion and morality Coles shows how mothers and fathers also instill a strong understanding of political life in their offspring

Children, Childhoods and Global Politics J. Marshall Beier, Helen Berents, 2023-11-09 Though children have never been absent from international studies discourse they are too often reduced to a few simplistic and unidimensional framings This book seeks to recover children's agency and to recognize the complex variety of childhoods and the global issues that affect them Written by an international list of contributors from Europe Africa North America and Australasia chapters present highly nuanced accounts of children and childhoods across global political time and space split into three broad sections imagined childhoods governed childhoods and lived childhoods Through its analysis the book demonstrates how international relations is somewhat paradoxically quite deeply invested in a particular rendering of childhood as primarily a time of innocence vulnerability and incapacity

Democracy's Child Alison L. Gash, Daniel J. Tichenor, 2022 The politics children make Governing children paternalism membership subjugation and abandonment Leveraging children in democratic politics symbols recruits and collateral young people and the politics of agency Looking back to look forward centering children in democratic politics [Discovering Childhood in International Relations](#) J. Marshall Beier, 2020-06-13 This book examines how and why in the context of International Relations children's subjecthood has all too often been

relegated to marginal terrains and children themselves automatically associated with the need for protection in vulnerable situations as child soldiers refugees and conflated with women all typically with the accent on the Global South Challenging us to think critically about childhood as a technology of global governance the authors explore alternative ways of finding children and their agency in a more central position in IR in terms of various forms of children s activism children and climate change children and security children and resilience and in their inevitable role in governing the future Focusing on the problems pitfalls promises and prospects of addressing children and childhoods in International Relations this book places children more squarely in the purview of political subjecthood and hence more centrally in IR **Rethinking**

Children's Citizenship T. Cockburn,2012-11-16 This book explores the relationship between children and citizenship analyzing international perspectives on citizenship and human rights and developing new methods for facilitating the recognition of children as participating agents within society **Children's Ways** James Sully,1897 *The Saturday Review of Politics, Literature, Science and Art* ,1887 **Proceedings of the ... Annual Convention of the Association of Colleges and Preparatory Schools in the Middle States and Maryland** Middle States Association of Colleges and Secondary Schools,1898 Growing Up in a Divided Society Sean Byrne,1997-03 One of the key unanswered questions related to youth violence and tolerance is the effect of social diversity on daily experience By examining children s political imagery this project significantly expands existing work on troubled and neglected youth in Northern Ireland South Africa and the Middle East The current changing political context within Northern Ireland reflects that a process of peace building has begun and that integrated schooling is an important cornerstone of that process Theœ political life of children A. R. Siegel,1985 The Politics and Poetics of Irish Children's Literature Nancy Watson,2009 Although the work of many contemporary Irish writers for children is often complex and sophisticated there is currently very little critical analysis to do it justice The aim of this book is to redress that situation and to prove that the best writing for children is no less complex and well written than the best adult fiction and offers valuable material for theoreticians With a detailed examination of selected texts by six Irish writers for children the book explores the reciprocal relationship between the different time and place of the child reader and the complexity and multiplicity of the world of the adult writer It suggests that putting the different forms of experience in dialogue with each other promotes a new understanding because it allows for other points of view and other ways of seeing This book also suggests that the way in which these writers implement the potential of the child reader s different perspective refutes the idea of the impossible relation between adult and child The opening chapter explores the attempt to re create childhood and adolescence in a range of Irish memoir and fiction **The Great Art of Government** Peter Josephson,2002 Moving beyond previous scholarship he gives us a Locke as much concerned with the effective functioning of government as with the roots of its moral legitimacy **BOOK JACKET** **Seen and Not Heard** Jana Mohr Lone,2021-04-26 A 2022 Choice Reviews Outstanding Academic Title How might society benefit if children were

recognized as independent thinkers capable of seeing clearly and contributing in valuable ways to our world How would children s lives change if what they said was not often ignored or patronized In a series of conversations with children about many of life s important philosophical questions *Seen and Not Heard* reveals children as perceptive and original thinkers Guided by discussions about the meaning of childhood friendship justice and fairness happiness and death the book invites us to rethink our beliefs about children and become more receptive to the ways we can learn from them *The Political Works of Thomas Paine* Thomas Paine,1879 On Becoming Responsible Michael S. Pritchard,1991 Pritchard provides a deliberate and convincing argument for a starting point for the discussion of moral development on in which self regard and empathy provide equally essential groundings for individual morality Drawing essential elements from the work of Reid Strawson Rawls Kohlberg and Gilligan he builds a comprehensive framework for tracing moral development from childhood one that allows human morality to be grounded in both reason and emotion and that recognizes the importance to morality of justice and rights as well as caring and responsibility **The Indiana School Journal** ,1890 The International Journal of Children's Rights ,2002 **The Critic** ,1893 **The Literary World** ,1894
