Political Powerlessness Agricultural Workers In Post War England:

Political Powerlessness Renée Danziger,1988 The Death of Rural England Alun Howkins,2003-09-02 Alun Howkins panoramic survey is a social history of rural England and Wales in the twentieth century He examines the impact of the First World War the role of agriculture throughout the century and the expectations of the countryside that modern urban people harbour Howkins analyzes the role of rural England as a place for work as well as leisure and the problems caused by these often conflicting roles This overview will be welcomed by anyone interested in agricultural and social history historical geographers and all those interested in rural affairs Labour and the Countryside Clare V. J. Griffiths,2007-05-10 The common reputation of the British Labour Party has always been as a thing of the town an essentially urban phenomenon which has failed to engage with the rural electorate or identify itself with rural issues Yet during the inter war years Labour viewed the countryside as a crucial electoral battleground even claiming that the party could never form a majority administration without winning a significant number of seats across rural Britain Committing itself to a series of campaigns in rural areas during the 1920s and 30s Labour developed a rural and often specifically agricultural programme on which to attract new support and members Labour and the Countryside takes this forgotten chapter in the party s history as a starting point for a fascinating and wide ranging re examination of the relationship between the British Left and rural Britain The first account of this aspect of Labour s history this book draws on extensive research across a wide variety of original source material from local party minutes and trade union archives to the records of Labour s first two periods in government Historical literary and visual representations of the countryside are also examined along with newspapers magazines and propaganda materials In reconstructing the contexts within which Labour attempted to redefine itself as a voice for the countryside the resulting study presents a fresh perspective on the political history of the inter war years **Rural Politics** Michael Winter,2013-05-13 The rural areas of Britain Europe and the developed world are undergoing massive changes with increasing concern about productivity agricultural methods and environmental policy Rural Politics examines the issues affecting rural areas such as water pollution forestry and the greening of agricultural policy It looks in particular at the political parameters to these issues and how concern for the countryside is essentially a part of a wider set of political processes Rural Politics provides a much needed examination of the evolution and content of policies affecting today s countryside both in terms of major land uses and economic and social development *English Farmworkers and Local Patriotism, 1900-1930* Nicholas Mansfield,2001 This new study looks at the ways in which the years surrounding the First World War shaped the lives of the rural workforce in Britain and how the patriotism unleashed by the war was used by those in power to blur class divisions and build conservative attitudes in rural communities Using the area of Shropshire and the Marches as a focus the book looks at farmworkers and their trade unions the structures of agrarian economy class divisions local loyalties cultural institutions and political organisations From 1917 the growing power of the farmworkers unions and

the rural labour movement mounted a challenge to the landed elites and sought a radical change from rural poverty The author shows how the elites met this threat dynamically by creating a range of new village institutions such as ploughing matches Women s Institutes village halls war memorials and the British Legion The extraordinary growth of rural radicalism at the end of the war was diffused by popular conservatism and local patriotism Influenced by wartime experiences the period 1900 1930 saw a change in rural society from parochial concerns to a new sense of loyalty to county and to the English nation
