Right To Vote Politics And The Passage Of The 15th Amendment:

The Right to Vote William Gillette, 1969 Reconstructing the Corporation Grant M. Hayden, Matthew T. Bodie, 2021-03-11 Modern corporations contribute to a wide range of contemporary problems including income inequality global warming and the influence of money in politics Their relentless pursuit of profits though is the natural outcome of the doctrine of shareholder primacy As the consensus around this doctrine crumbles it has become increasingly clear that the prerogatives of corporate governance have been improperly limited to shareholders It is time to examine shareholder primacy and its attendant governance features anew and reorient the literature around the basic purpose of corporations This book critically examines the current state of corporate governance law and provides decisive rebuttals to longstanding arguments for the exclusive shareholder franchise Reconstructing the Corporation presents a new model of corporate governance one that builds on the theory of the firm as well as a novel theory of democratic participation to support the extension of the corporate franchise to employees Landmark Debates in Congress Stephen W.
