Rilke Werke Volume :

The Psychology of Death in Fantasy and History Jerry Piven, 2004-03-30 This volume investigates the impact of death consideration on such phenomena as Buddhist cosmology the poetry of Rilke cults and apocalyptic dreams Japanese mythology creativity and even psychotherapy Death is seen as a critical motivation for the genesis of artistic creations and monuments of belief systems fantasies delusions and numerous pathological syndromes Culture itself may be understood as the innumerable ways that societies defend themselves against helplessness and annihilation how they mould and recreate the world in accordance with their wishes and anxieties the social mechanisms employed to deny annihilation and death Whether one speaks of the construction of massive burial tombs magical transformations of death into eternal life afterlives or resurrections the need to cope with death and deny its terror and effect are the sine qua non of religion culture ideology and belief systems in general **Wartime Letters of Rainer Maria Rilke, 1914-1921** Rainer Maria Rilke, 1940

Reading Etty Hillesum in Context Klaas A.D. Smelik, Gerrit Oord, Jurjen Wiersma, 2025-10-01 The diaries and letters of Etty Hillesum 1914 1943 have a special place among the Jewish Dutch testimonies of the Shoah so much so that Etty Hillesum studies has become its own field This book offers the most important contributions from the past fifteen years of international research into Hillesum's work and life studying her ethical philosophical spiritual and literary existential search

German Poetry Gray, 1965-01-02 **A History of Austrian Literature 1918-2000** Katrin Maria Kohl, Anne Fuchs, Florian Krobb, Ritchie Robertson, 2006 New essays examine 20th c Austrian literature in relation to history politics and popular culture 20th century Austrian literature boasts many outstanding writers Schnitzler Musil Rilke Kraus Celan Canetti Bernhard Jelinek These and others feature in broader accounts of German literature but it is desirable to see how the Austrian literary scene and Austrian society itself shaped their writing This volume thus surveys Austrian writers of drama prose fiction and lyric poetry relates them to the distinctive history of modern Austria a democratic republic that was overtaken by civil war and authoritarian rule absorbed into Nazi Germany and re established as a neutral state and examines their response to controversial events such as the collusion with Nazism the Waldheim affair and the rise of Haider and the extreme right In addition to confronting controversy in the relations between literature history and politics the volume examines popular culture in line with current trends Contributors Judith Beniston Janet Stewart Andrew Barker Murray Hall Anthony Bushell Dagmar Lorenz Juliane Vogel Jonathan Long Joseph McVeigh Allyson Fiddler Katrin Kohl is Lecturer in German and a Fellow of Jesus College and Ritchie Robertson is Taylor Professor of German Language and Literature and a Fellow of The Queen's College both at the University of Oxford **Images of Idiocy** Martin Halliwell, 2017-03-02 This book traces the concept of idiocy as it has developed in fiction and film in the nineteenth and twentieth centuries It focuses particularly on visual images of idiocy and argues that writers as diverse as Gustave Flaubert Fyodor Dostoevsky Joseph Conrad John Steinbeck Flannery O'Connor and Rohinton Mistry and filmmakers such as Jean Renoir Akira Kurosawa Alfred

Hitchcock Werner Herzog and John Huston have all been attracted to idiot figures as a way of thinking through issues of language acquisition intelligence creativity disability religion and social identity Martin Halliwell provides a lively and detailed discussion of the most significant literary and cinematic uses of idiocy arguing that scientific conceptions of the term as a classifiable medical condition are much too narrow With the explosion of interest in idiocy among American and European filmmakers in the 1990s and the growing interest in its often overlooked history this book offers a timely reassessment of idiocy and its distinctive place at the intersection of science and culture **From Goethe to Gundolf**

Roger Paulin, 2021-08-24 *From Goethe to Gundolf* Essays on German Literature and Culture is a collection of Roger Paulin's groundbreaking essays spanning the last forty years The work represents his major research interests of Romanticism and the reception of Shakespeare in Germany but also explores a broader range of themes from poetry and the public memorialization of poets to fairy stories all meticulously researched yet highly accessible As a comprehensive examination of German literary history in the period 1700-1900 the collection not only includes accounts of the lives and work of Goethe Schiller the Schlegels and Gundolf amongst others serving to nuance our understanding of these figures in history but also considers diverse and often underexplored topics from academic freedom to the rise of travel literature The essays have been reformulated corrected and updated to add references to recent works However the core foundations of the originals remain and just as when they were first published the value of these essays to researchers students and all those who are interested in German literary history cannot be overstated *The Oxford Handbook of Mental Health and Contemporary Western*

Aesthetics, 2025-01-02 Human flourishing depends upon the mental health of the individuals Throughout history various cultural traditions have established and practiced diverse strategies to maintain their community members' mental health treat their mental illness and enhance their well-being They range from spiritual disciplines religious rituals and philosophical training to communal activities educational instructions and community support It is noteworthy that aesthetic objects and activities are frequently integrated into these strategies They include visual arts music dance story telling theatre and occasions and events made special by certain foods drinks decorations clothes and fragrance This long held and widely practiced integration of aesthetics into promotion of mental health testifies to the power of the aesthetic to affect the well-being of humans and their communities The world's major philosophies and religious traditions have recognized this power of the aesthetic For example Plato's proposed censorship of the arts in his utopian Republic indicates his acknowledgement of and a respect for the power of the arts to mold the citizen's psyche and character Confucianism also utilizes arts and rituals to promote moral virtues Finally Buddhism teaches the cultivation of mindful practice for human flourishing by developing an alternative relationship with present moment experience such as suffering and distress Today the most dominant methods of treating mental illness in the West are psychotherapy psychology and psychiatry methodologies and practices established and developed in Europe since the nineteenth century Ever since the birth of art and poetry its purpose has been to inspire

stir and move people This handbook addresses the valuable role aesthetics plays in psychotherapy and psychiatry exploring both theory and practice *An age of crisis, 1870-1950* Ernst Feise, 1958 **The Seasons** Luke Fischer, David Macauley, 2021-07-01 Although the seasons have been a perennial theme in literature and art their significance for philosophy and environmental theory has remained largely unexplored This pioneering book demonstrates the ways in which inquiry into the seasons reveals new and illuminating perspectives for philosophy environmental thought anthropology cultural studies aesthetics poetics and literary criticism The Seasons opens up new avenues for research in these fields and provides a valuable resource for teachers and students of the environmental humanities The innovative essays herein address a wide range of seasonal cultures and geographies from the traditional Western model of the four seasons spring summer fall and winter to the Indigenous seasons of Australia and the Arctic Exemplifying the crucial importance of interdisciplinary research The Seasons makes a compelling case for the relevance of the seasons to our daily lives scientific understanding diverse cultural practices and politics German Literature Since Goethe: An age of crisis, 1870-1950 Ernst Feise, Harry Steinhauer, 1958 *Literature in Vienna at the Turn of the Centuries* Ernst Grabovszki, James N. Hardin, 2003 Insightful essays on the striking resemblances between the Viennese literary cultural scene in 1900 and 100 years later This book of new essays by widely published scholars from the United States Great Britain Germany and Austria examines the artistic social political and historical continuities and discontinuities in Viennese literature during the periods around 1900 and 2000 It takes its impetus from the idea that both turns of the century are turning points in the development of Austrian literature and history The essays show that in both periods literature not only reflects societal conditions and political issues but also serves to criticize them Ernst Grabovszki's introduction sets the context of literature in Vienna in 1900 and 2000 and is followed by essays exploring the following topics bearing on the city's literature across the two periods writing about Vienna Janet Stewart art and architecture Douglas Crow psychoanalysis and the literature of Vienna Thomas Paul Bonfiglio poetry in Vienna from Hofmannsthal to Jandl Rüdiger Görner Austrian cinema culture Willy Riemer Austrian Jewish culture Hillary Hope Herzog and Todd Herzog Austrian women's writing Dagmar C. G. Lorenz Karl Kraus and Robert Menasse as critical observers of their times Geoffrey C. Howes and Venice as mediator between the Viennese metropolis and the provinces John Pizer The figures treated range from Arthur Schnitzler Hugo von Hofmannsthal Sigmund Freud Theodor Herzl Karl Kraus Peter Altenberg Franz Grillparzer Joseph Roth Bertha von Suttner and Marie von Ebner-Eschenbach in the earlier fin de siècle to Elfriede Jelinek Robert Schindel Robert Menasse Josef Haslinger Ernst Jandl Friedensreich Hundertwasser and Marlene Streeruwitz in the current period Ernst Grabovszki teaches at the University of Vienna James Hardin is professor emeritus of German at the University of South Carolina **Rilke's Poetics of Becoming** Ben Hutchinson, 2006 Rainer Maria Rilke's early verse is often seen as having little relevance to the great achievement of the middle years the *Neue Gedichte* Yet the very different styles of the juvenilia and this new maturity are united by a preoccupation with processes of motion and

growth which governs both his life and work In this meticulous philological study Ben Hutchinson reassesses every level of Rilke s early poetry from its motives and metaphors to its very grammar and syntax in order to trace what he terms a poetics of becoming With careful attention to rhythm resonance and linguistic detail he illuminates both the hidden patterns of the poetry and the artistic context of the fin de si cle From its roots in the intellectual climate of the 1890s to the poems inspired by Rodin in 1908 Rilke s stylistic development is set against the surprising consistency with which he pursues this poetics of becoming
