**Compendium of World Sovereigns Volume III Early Modern** provides students and scholars with the perfect reference guide to support their studies and to fact check dates people and places *Out of the Shadows* Neill Lochery, 2017-02-23 *Out of the Shadows* is a full account of post authoritarian democratic Portugal 1974 to Present following the Carnation Revolution which began on April 25th 1974 and based on documentary sources personal accounts and unpublished documents from the National Archive in Kew Lisbon and Portugal s best days are behind them is a common theme put forward by writers who focus their attention on the golden era of Portuguese discoveries the Empire and the role of Lisbon as a major Atlantic power Neill Lochery s book demonstrates that Portugal is not suffering from such inevitable decline In 1974 a dramatic overnight coup led to the fall of the Estado Novo dictatorship in Portugal in Lisbon the events became known as the Carnation Revolution As the colonies collapsed the United States helped airlift 13 000 refugees from Angola back to Portugal as US Secretary of State Henry Kissinger maneuvered to advance the moderate side of the government in Lisbon over the radicals and thus guarantee US interests As Neill Lochery argues one of the major misunderstandings of the post revolution era in Portugal has been the concentration on domestic over international factors in helping to shape its story Having emerged from its twentieth century financial crisis and bail out and thus out of the shadows he argues that Portugal is a country of huge relevance to the present day and of great future significance to the European continent Indeed the strengthening of bonds between Portugal and its European neighbours can be seen to be more important than ever given the heightened tensions in European politics the refugee crisis and the prospect of a changing European Union **Cashing Out** Neill

Lochery,2023-11-07 When Nazis looked to flee Europe with stolen art gems and gold in tow certain neutral countries were all too willing to assist them By the end of January 1945 it was clear to Germany that the war was lost The Third Reich was in freefall and its leaders apart from those clustered around Hitler in his Berlin bunker sought to abscond before they were besieged But they wanted to take their wealth with them Their escape routes were diverse Sweden and Switzerland boasted proximity banking and industrial closeness while Spain and Portugal offered an inviting Atlantic coastline and shipping routes to South America And in various ways each of these so called neutral nations welcomed the Nazi escapees along with the clandestine wealth they carried Cashing Out tells the riveting history of the race to intercept the stolen assets before they disappeared and before the will to punish Germany was replaced by the political considerations of the fast approaching Cold War Bestselling author Neill Lochery here brilliantly recounts the flight of the Nazi looted riches the last great escape of World War II and the Allied quest for justice **Jahresberichte für deutsche Geschichte** ,2002 **Book Review Index**
