PULLMAN PORTERS AND THE MAKING OF THE BLACK MIDDLE CLASS

"Rescuing an icon from the edge of oblivion is no easy task; making room for him in the collective memory is harder still. But revealing his profound influence on our social and cultural institutions today requires insight and imagination.

Larry Tye has both." —*The San Francisco Chronicle*

Rising From The Rails Pullman Porters And The Making Of The Black Middle Class:

Rising from the Rails Larry Tye, 2005-06-01 An engaging social history that reveals the critical role Pullman porters played in the struggle for African American civil rights George Pullman began recruiting Southern blacks as porters in his luxurious new sleeping cars just as the Civil War was ending and the offer of a steady job and the chance to see the world proved irresistible Scores of former slaves signed up to serve as maid and waiter concierge nanny and occasionally doctor and undertaker to cars full of well heeled white passengers making the Pullman Company the largest employer of African Americans in the country by the early 1900s Drawing on extensive interviews with dozens of porters and their descendants Larry Tye reconstructs the world of the Pullman porter and the vital cultural political and economic roles he played as forerunner of the modern black middle class *Rising from the Rails* is a riveting look at this missing chapter of American history Praise for *Rising from the Rails* Named a Recommended Book by The Boston Globe San Francisco Chronicle and The Seattle Times A valuable window into a long underreported dimension of African American history Newsday A highly readable business history at one end and labor history at the other Tye shows what whites never saw the grinding often humiliating realities of the job and the rippling effect of steady employment in the upward mobility of the porters children and grandchildren Publishers Weekly

Predatory Lending and the Destruction of the African-American Dream Janis Sarra, Cheryl L. Wade, 2020-07-09 Since the Great Recession of 2008 the racial wealth gap between black and white Americans has continued to widen In *Predatory Lending and the Destruction of the African American Dream* Janis Sarra and Cheryl Wade detail the reasons for this failure by analyzing the economic exploitation of African Americans with a focus on predatory practices in the home mortgage context They also examine the failure of reform and litigation efforts ostensibly aimed at addressing this form of racial discrimination This research augmented by first hand narratives provides invaluable insight into the racial wealth gap by vividly illustrating the predation that targets African American consumers and examining the intentionally obfuscating settlement terms of cases brought by the U S Department of Justice states attorneys and municipalities The authors conclude by offering structural systemic changes to address predatory practices This important work should be read by anyone seeking to understand racial inequality in the United States

The Rise of Chicago's Black Metropolis, 1920-1929 Christopher Robert Reed, 2011-04-15 During the Roaring 20s African Americans rapidly transformed their Chicago into a black metropolis In this book Christopher Robert Reed describes the rise of African Americans in Chicago s political economy bringing to life the fleeting vibrancy of this dynamic period of racial consciousness and solidarity Reed shows how African Americans rapidly transformed Chicago and achieved political and economic recognition by building on the massive population growth after the Great Migration from the South the entry of a significant working class into the city s industrial work force and the proliferation of black churches Mapping out the labor issues and the struggle for control of black politics and black business Reed offers an unromanticized view of the entrepreneurial efforts of black migrants

reassessing previous accounts such as St Clair Drake and Horace R Cayton's 1945 study *Black Metropolis*. Utilizing a wide range of historical data, *The Rise of Chicago's Black Metropolis, 1920-1929* delineates a web of dynamic social forces to shed light on black businesses and the establishment of a black professional class. The exquisitely researched volume draws on fictional and nonfictional accounts of the era, black community guides, mainstream and community newspapers, contemporary scholars and activists, and personal interviews.

A Working People Steven A. Reich, 2013-09-12 In this book, historian Steven A. Reich examines the economic, political, and cultural forces that have beaten and built America's black workforce since Emancipation. From the abolition of slavery through the Civil Rights Movement and Great Recession, African Americans have faced a unique set of obstacles and prejudices on their way to becoming a productive and indispensable portion of the American workforce. Repeatedly denied access to the opportunities all Americans are to be afforded under the Constitution, African Americans have combined decades of collective action and community mobilization with the trailblazing heroism of a select few to pave their own way to prosperity. This latest installment of the African American History Series challenges the notion that racial prejudices are buried in our nation's history and instead provides a narrative connecting the struggles of many generations of African American workers to those felt the present day. Reich provides an unblinking account of what being an African American worker has meant since the 1860s, alluding to ways in which we can and must learn from our past for the betterment of all workers, however marginalized they may be.

A Working People: A History of African American Workers Since Emancipation is as factually astute as it is accessibly written, a tapestry of over 150 years of troubled yet triumphant African American labor history that we still weave today.

Railroads in the African American Experience Theodore Kornweibel, 2010-02-26 For over a century, railroading provided the most important industrial occupation for blacks. Brakemen, firemen, porters, chefs, mechanics, laborers: African American men and women have been essential to the daily operation and success of American railroads. The connections between railroads and African Americans extend well beyond employment. Civil rights protests beginning in the late 19th century challenged railroad segregation and job discrimination; the major waves of black migration to the North depended almost entirely on railroads; and railroad themes and imagery penetrated deep into black art, literature, drama, folklore, and music.

Demagogue Larry Tye, 2020-07-07 The definitive biography of the most dangerous demagogue in American history, based on exclusive access to his papers and recently unsealed transcripts of his closed-door Congressional hearings. In the long history of American demagogues, from Huey Long to Donald Trump, never has one man caused so much damage in such a short time as Senator Joseph McCarthy. We still use McCarthyism to stand for outrageous charges of guilt by association, a weapon of polarizing slander. From 1950 to 1954, McCarthy destroyed many careers and even entire lives, whipping the nation into a frenzy of paranoia, accusation, loyalty oaths, and terror. His chaotic, meteoric rise is a gripping and terrifying object lesson for us all. Yet his equally sudden fall from fame offers hope that given the rope, most American demagogues eventually hang themselves. Only now, through

best selling author Larry Tye's look at the senator's records can the full story be told **An Anthology of Respect** Lyn Hughes, 2007 In addition to the book being an important educative contribution to an often overlooked component of American history it can also serve as an aid to genealogists historians and most importantly descendants of these men moreover to all who are interested in research on what has become a growing area of interest The publication of An Anthology Of Respect The Pullman Porters National Historic Registry of African American Railroad Employees represents a unique scholarly contribution to the fields of African American and American Labor History **The Publishers Weekly**, 2004 **The Ironworker**, 2005 **National Genealogical Society ...
