Steven W Hook

Risk Taking In International Politics Prospect Theory In American Foreign Policy:

Risk-taking in International Politics Rose McDermott, 1998 **Außenpolitikanalyse** Klaus Brummer, Kai Oppermann, 2018-11-05 Die um zwei Kapitel erweiterte Neuauflage diskutiert 12 Theorien der Außenpolitikforschung die in drei Abschnitte untergliedert sind Der erste Teil widmet sich den Großtheorien der Internationalen Beziehungen und arbeitet heraus in welcher Art und Weise diese für die Analyse von Außenpolitik fruchtbar gemacht werden können Der zweite Block diskutiert Erklärungsansätze die außenpolitische Entscheidungen auf innenpolitische Einflüsse und Zwänge zurückschreiben Die im dritten Abschnitt des Bandes behandelten Theorien richten ihren Fokus auf psychologische und kognitive Erklärungsfaktoren auf der Ebene individueller außenpolitischer Entscheidungsstrategien Der Band gibt damit den aktuellen Stand der Theorieentwicklung in der Disziplin der Außenpolitikforschung wieder **Handbuch Internationale Beziehungen** Frank Sauer, Luba von Hauff, Carlo Masala, 2024-05-15 Das Handbuch Internationale Beziehungen erscheint mittlerweile in der dritten vollständig bearbeiteten und erweiterten Auflage Das Handbuch vermittelt einen umfassenden Überblick über den state of the art der politikwissenschaftlichen Teildisziplin Internationale Beziehungen in deutscher Sprache Es präsentiert theoretische und methodische Grundlagen der Forschung in den Internationalen Beziehungen und stellt die wesentlichen Akteure und Problemfelder der internationalen Politik vor Das Nachschlagewerk richtet sich sowohl an Wissenschaftlerinnen als auch an Studierende und die interessierte Öffentlichkeit *Risk and Resolution* R. Greg Brown, 2019-05-20 America repeatedly finds itself mired in military interventions long after public buy in to the national interest has waned Why is the timely disengagement of military forces so difficult to achieve Traditional international relations theories diminish the role of the individual leader in favor of the state or international institutions Behavioral science theories have in recent years experienced a resurgence However the dominant behavioral explanation of foreign policy decision making prospect theory while it focuses on how people tend to make decisions under risk still minimizes the influence of the individual president Decisions to disengage military forces are presidential decisions just like the decisions to commit forces to foreign interventions If we accept this then it is important to understand if and if so why some presidents inherently are more or less acceptant of the risks disengagement presents This book operationalizes a competing personality based model of decision making under risk Referred to here as the trait based model it is assessed using disengagement opportunities in three varied levels of military intervention across four presidencies humanitarian relief turned nation building under George H W Bush and Bill Clinton in Somalia compelling air campaigns turned peace making keeping in Bosnia and Kosovo under Clinton and major combat operations turned irregular warfare in Iraq under George W Bush and Barack Obama Data for the model predominantly comes from existing presidential personality profiles based on the dominant model of personality theory the five factor model augmented by Myers Briggs Type Inventory data from public sources This study aims to explain the roughly 30 percent of cases which defy prospect theory's predictions and to better explain those cases where prospect theory might

heretofore have sufficed The results suggest specific personality traits do in fact point to presidents predispositions toward risk which in turn help explain their disengagement decisions This work may be only the second to apply the five factor model to presidential foreign policy decision making and is the first to do so in the context of disengagement decisions Hopefully it will foster further work in both areas Mobilizing the Past Steve Chan, 2025-07-29 Historical analogies are often utilized to frame and formulate foreign policies illuminate issues of war and peace and mobilize support for particular political programs The historical record however can be distorted in a variety of ways leading to overly simplistic misleading conclusions that impair sound policy and scholarship This danger is most imminent and palpable when there exists premature academic consensus pressure to conform to political orthodoxy intellectual complacency and cognitive resistance to alternate interpretations of historical episodes We must be especially vigilant to guard against these pitfalls when deliberating one of the most high stakes topics in global politics the alarming potential for military conflict between the United States and China Past precedents and parallels regularly inform analyses of China's relations with the US By highlighting serious errors of commission or omission in popular narratives and scholarly studies concerning international relations in general and Sino American relations in particular Steve Chan challenges commonly accepted lessons of history and cautions against the misuse and misunderstanding of the past in examining China's rise and its implications for international peace and stability This far reaching book presents alternative overlooked historical accounts that are highly pertinent to Sino American relations today making it essential for researchers and students of international affairs

Risk-taking in International Politics Rose McDermott, 1998 Discusses the way leaders deal with risk in making foreign policy decisions Handbook of International Relations Walter Carlsnaes, Thomas Risse-Kappen, Thomas Risse, Beth A Simmons, 2002-03-13 NEW IN PAPERBACK FEBRUARY 2005 The most systematic and wide ranging survey of the multifaceted field of International Relations yet produced It is sure to become a standard reference work and teaching text and is unlikely to be superseded at any time in the near future It should be considered as essential reading International Affairs The Handbook of International Relations published 2002 in hardback quickly established itself as the benchmark volume providing a state of the art review and indispensable guide to the study of international relations It is now released in paperback in order to be accessible to students in classroom use Divided into three parts the volume reviews both the historical philosophical analytical and normative roots to the discipline and the key contemporary topics of research and debate today The first part introduces the major approaches within the field and unpacks many of the on going debates within the discipline including those between rationalist and constructivist approaches The second part moves on to explore the key concepts and contextual factors important to the subject from concepts like the state and power to international and transnational actors debates around globalization and contending feminist perspectives The final part reviews a number of the key substantive issues in international relations and is designed to complement the analytical tools and perspectives

presented in Parts I and II Examples of the many topics included are foreign policy war and peace security nationalism and ethnicity finance trade development the environment and human rights Weaker States, Risk-taking, and Foreign Policy Jihwan Hwang,2005 Risk-taking in International Politics Rose McDermott,1991 **U.S. Foreign Policy: the Paradox of World Power, 2nd Edition** Steven W Hook,2008 An in depth overview of US foreign policy that highlights a process that is shaped by a paradox that the very sources of national strength a sense of national exceptionalism a diffusion of political powers and more also create vulnerabilities for the United States Includes an array of features to aid student learning About the Author Steven W hook is an associate professor of political science at Kent State University Winning the War of Words Wojtek Mackiewicz Wolfe,2008-01-30 The author investigates how President George W Bush s framing of the September 11 attacks helped to sell war to the American public **Journal of Theoretical Politics** ,2005 **The Journal of Legal Studies** ,2002 **Historical Encyclopedia of U.S. Presidential Use of Force, 1789-2000** Karl R. DeRouen,2001 Use of military force without a declaration of war has been a weapon in the arsenal of U S presidents for the last 200 years Force has become an increasingly more relevant foreign policy action in the post Cold War world This comprehensive resource approaches the study of the use of force from several theoretical approaches the historical record which includes regional analyses of Latin America the Caribbean Europe Asia the Middle East North Africa and Sub Saharan Africa the data sets that focus on the use of force the international level which includes democratic peace multilateralism and Yugoslavia domestic politics which includes Congress the media and public opinion executive congressional relations including political and constitutional issues ethics and theories of decision making on the use of force The volume includes a list of important concepts and terms and a selected bibliography as well as suggested readings following each entry and an index It will be of interest to students and scholars in political science U S history international relations and foreign policy Academic libraries and selected public libraries will also be interested in this comprehensive volume **American Book Publishing Record Cumulative 1998** R R Bowker Publishing,1999-03 **Peace and Prosperity Policy and Peace Regime on the Korean Peninsula** In-dök Kang,2005 SAIS Review ,1999 University of Pennsylvania Law Review ,2014 **Journal of East Asian Studies** ,2003 **Journal of Peace Research** ,2002
