## Abstract

Previous research has found that individuals harboring hostile sexist attitudes are more likely to support the use of political violence. In this study, we examine this relationship further. We theorize that the impact of hostile sexism on support for political violence is mediated through two mutually reinforcing factors: social dominance orientation and political illiberalism. We test this argument using an original survey we administered to over 1,400 subjects in the United States. We employ two operationalizations of individuals' support for political violence: support in the abstract and support for specific acts of political violence. We find that individuals who exhibit hostile sexism are substantially more likely to support political violence, both abstract and specific. Moreover, we find that both social dominance orientation and political illiberalism together mediate 64.9% of the effect of hostile sexism on support for political violence in the abstract and 80.5% of the effect on support for specific acts of political violence. We conclude with a discussion of the implications of these findings.

## Introduction

In their study of the impact of partisan political polarization and violence in the United States, Kalmoe and Mason (2022b) made an arresting, though ancillary, finding: individuals who exhibit hostile sexism are statistically more likely to express support for partisan political violence. Hostile sexism is an overtly misogynistic type of sexism, frequently directed against women who fail to

Phelan, 2025-06-09 Feminism has been defeated Once a politics feminism is now a philosophy an epistemology a method Once for women it is now for everyone Once in pursuit of liberation it now seeks only inclusion In *Feminism Defeated* Kate Phelan traces the depoliticization and ultimately the defeat of feminism She recovers the second wave view of men and women as sex classes enemies political kinds a view more radical than the contemporary view of men and women as social constructs She also describes how poststructuralism displaced this view and replaced it with another In this view the sex gender binary constructs men and women and excludes the gender nonconforming As this view replaced the second wave one the injustice of men's oppression of women was replaced by that of exclusion and the goal of women's liberation was replaced by that of inclusion Thus did feminism become the trans inclusionary movement as which we now know it and Phelan shows that this shift was not the progression of feminism it was the betrayal of it In this highly original and persuasive study she argues that the recent emergence of a new gender critical feminism presents a moment of opportunity to reclaim feminism's political project      **Gender and Power** R.
