The British National Bibliography Arthur James Wells,2009 **The Art of Shrinking Heads** Dany-Robert Dufour,2008
After the hell of the Nazis and the terror of Communism it is possible that a new catastrophe has appeared on the horizon this time it is neoliberalism that wants to create its own new man For two centuries Kant s critical subject and Freud s neurotic subject provided us with philosophical templates for modernity but today modern capitalism is systematically destroying these two subjects and replacing them with something new The two subjects of modernity both presupposed some reference to a higher value or power like Reason which provided a symbolic guarantor but neoliberalism by emphasizing the exchange of commodities in the marketplace destroys all transcendental references of this kind Now human beings no longer look beyond themselves and no longer have to agree about symbolic values they only have to get on with the circulation and consumption of goods Deprived of his faculty of judgement and urged to enjoy himself without restraint the new man of neoliberalism takes centre stage in the era of global capitalism In this biting critique of our contemporary condition Dufour shows that the radical transformation of the subject brought about by neoliberalism what he calls the art of shrinking heads contains a new kind of violence which has far reaching consequences for our ways of living together The History of the Sacred Scriptures of the New Testament Eduard Wilhelm Eugen Reuss,1884 *The Publishers Weekly* ,1877
