

# 1 Images of girl offenders in theory and policy: institutional responses to girls

Of all the vulgar crimes of escaping from the consideration of the effect of social and moral influences on the human mind, the most vulgar is that of attributing the dimensions of conduct and character to inherent natural differences.

J. B. Mill, *Principles of Political Economy*, 1848

Responses to female offenders present a confusing patchwork of images. On the one hand, a female offender or delinquent is seen as "weak", "suffering" and "depressed", and, therefore, in need of protection. On the other hand, her offending is associated with "uncontrollable tendency" as with the rejection of prescribed feminine roles (e.g., through aggressive behaviour) and therefore, she is an object of condemnation and contempt. In both cases, however, there is perhaps a further tendency to perceive the female as a creature of impulse, easily swayed by emotion and, in the extreme cases, incapable of fully understanding her own actions (Harris, 1961). This frequently leads to the misperception of her behaviour as mentally abnormal or unstable. Moreover, there is ample evidence that females are sentenced to the less "criminally inclined" than males, less culpable, and so on. When they do offend, their actions are, for the most part, perceived as being symptomatic of a "cry for help" requiring individualised help and understanding, actions resulting from a troubled home situation, the innocent, and not with general consciousness of "keeping at home" and with domestic life.

These themes emerged in early theories about female criminality and in period responses to women and girls. But the themes have been well rehearsed in recent years.<sup>1</sup> In this chapter I shall concentrate on the responses to girl delinquents and explore my critique of the imagery of theories to a discussion of the general evolution of early theories and writings about female offenders which is often neglected: the politics of sex differences.

Girls are different from boys, or so it is assumed by those professionals and practitioners (for example police, probation officers, educational welfare officers, social workers, teachers and magistrates) who deal with them. It is argued that girls need a different kind of handling from boys within the criminal justice system and allied agencies. This claim is not a new one. From the eighteenth century onwards there is considerable

## **Sexism And The Female Offender An Organizational Analysis:**

Sexism and the Female Offender Loraine Gelsthorpe,1989 This study examines the treatment of young females in three modern criminal justice settings a secure assessment centre a detention centre and a police juvenile bureau to examine how sexism operates in an administrative context The author reviews the literature as well as the work of the organizations concluding that images of female offenders are mediated by a host of factors which cannot be linked directly to sexist ideology While not dismissing sexism completely it highlights the importance of administrative and organizational influences in the development of specific images of females such as the meaning of trouble for the agencies their micro politics etc

The Female Offender Meda Chesney-Lind,Lisa Pasko,2013 The Female Offender challenges the long standing tradition of male dominated criminology theory and research which has taken little or no account of gender differences **Feminist Theories of Crime** Merry Morash,2017-07-05 This collection re imagines the field of criminology with insights gleaned from feminist theory Works included here illustrate that gender is a key organizing principle of social life This means that men and women have gender that patriarchy as well as gender must be theorized and that other systems of oppression such as race and class must also be studied to fully understand the crime problem and the criminal justice system Finally the articles collected here exemplify the feminist concern for thinking consciously about how and why we do our research with the crucial goal of producing knowledge that will promote social justice Race, Gender, and Class in Criminology Dragan Milovanovic,Martin D. Schwartz,2015-12-22 These essays first published in 1996 focus on class race and gender as organising and analytical concepts in criminology For many years their importance in studying how the world relates to crime and its control was minimized or ignored It is clear however that these concepts are of critical importance in understanding societal issues especially crime and societal responses to it This title will be of interest to students of criminology **Routledge Library Editions: Women and Crime** Various Authors,2022-07-30 This set reissues five books on the subject of women and crime The titles which were originally published between 1930 and 1996 include a book of case studies of female criminals a comprehensive annotated bibliography on the social conflict and change of women in crime and essays which examine the construction of women in criminology This set will be of particular interest to students of both criminology and women s studies **No Safe Haven** Lori B. Girshick,2002 This controversial work examines for the first time the often taboo subject of bisexual and lesbian women who are sexually assaulted by other women **Perceptions of Female Offenders, Vol. 2** Brenda Russell,Celia Torres,2023-11-27 This new edition is a nuanced exploration of female involvement in various crimes from delinquency domestic violence sexual assault and homicide that resonates with the pulse of contemporary society In an age where many events are tweeted and debated online this book delves into the intricate ways social media portrays female offenders and how this can distort public perceptions and effect legal outcomes Volume two includes recent research and theory examining how female perpetration is intricately related to gender roles that persist

within the criminal justice system and often lead to gender disparities in treatment criminal justice response and sentencing and calls into question long held beliefs and systems that might not be as impartial as they appear The compelling nature of this volume addresses the complex relationship between trauma and offending and examines crucial subjects like partner violence homicide and the unique challenges faced by trans women within the criminal justice system and examines the myths associated with female offending and how that bleeds into criminal justice response It addresses theories that provide insight into female offending and sentencing and offers ways to generate gender inclusiveness This volume invites researchers practitioners and advocates for justice to join a vital conversation and develop a more informed and equitable criminal justice response
