Sexism Racism And Oppression:

Sexism, Racism, and Oppression Arthur Brittan, Mary Maynard, 1984-01-01 Feminist Theory Bell Hooks, 2000 A new edition of a classic work a sweeping examination of the core issues of sexual politics by one of feminism's most important and critical voices **Oppression, Privilege, and Resistance** Lisa Maree Heldke, Peg O'Connor, 2004 This anthology is a philosophical reader on racism sexism heterosexism and classism with a distinct theoretical framework that provides coherence and cohesion to the readings The book is framed by a model of racism sexism heterosexism and classism that understands these phenomena as interlocking systems of oppression Resting upon this oppression model are two sets of theories one concerned with the phenomenon of privilege the companion of oppression and the other with resistance the response to oppression The Physiology of Sexist and Racist Oppression Shannon Sullivan, 2015 While gender and race often are considered socially constructed this book argues that they are physiologically constituted through the biopsychosocial effects of sexism and racism Examining a complex tangle of affects emotions knowledge and privilege the book develops an understanding of the human body whose unconscious habits are biological On this account affect and emotion are thoroughly somatic not something mental or extra biological layered on top of the body They also are interpersonal social and can be transactionally transmitted between people Decolonizing Existentialism and Phenomenology Jina Fast, 2023-11-15 Decolonizing Existentialism and Phenomenology analyzes the history of decolonial existentialist and phenomenological theory in the work of figures such as Simone de Beauvoir Richard Wright Franz Fanon Lewis Gordon Audre Lorde Sylvia Wynter and Jamaica Kincaid in order to reimagine and rewrite the philosophical canon Phenomenology and existentialism study the structures of consciousness as experienced from the perspective of the subject yet their methods have been markedly tied to the subjective lived experiences and perspectives of White Europeans and Americans By centering the experiences of peoples of the African diaspora gender marginalized people and queer peoples Africana existentialist and phenomenologist philosophers in the twentieth and twenty first centuries have been able to generate new frameworks for understanding structures of meaning and consciousness within oppressive colonial orders thus challenging histories of existentialism and phenomenology that bracket social markers of identity and experiences of social identity This text represents a study of the philosophies of scholars that seek to decolonize hegemonic discourses and structures that impede the development of the selves and projects of colonized peoples **The ^AWrong of Injustice** Mari Mikkola, 2016-07-01 The book offers a feminist examination of contemporary social injustices It argues for a paradigm shift away from feminist philosophy organized around the gender concept woman and towards humanist feminism The book further develops a notion of dehumanization that explicates social injustices elucidates humanist feminism and improves non feminist analyses of injustice **Das Argument**, 1987 **Postfeminism and Organization** Patricia Lewis, Yvonne Benschop, Ruth Simpson, 2017-11-10 This edited book inserts postfeminism PF as a critical concept into understandings of

work and organization While the notion of PF has been extensively investigated in cultural and media studies it has yet to emerge within organization studies remaining marginal to understandings of work based experiences and subjectivities Understanding PF as a discursive cultural context not only draws on an established epistemological orientation to organizations as discursively constructed and reproduced but allows us to highlight how PF may underpin and be underpinned by other discursive regimes This book as the first in the field draws on key international authors to explore the contextual backdrop of PF and its links with neo liberalism transnational feminism and other hegemonic discourses the different ways in which this backdrop has infiltrated organizational values and practice through the primacy attached to choice merit and individual agency as well as through the widespread perception that gender disadvantage has been solved and the implications for organizational subjectivity and for how inequality is experienced and perceived This book introduces postfeminism as a critical concept with contemporary importance for the study of organizations arguing for its explanatory potential when Exploring women s and men s experience of managing and organizing Investigating the gendered aspects of organizational life Analysing the contemporary validation of the feminine and the associated feminization of management leadership and organizations Tracing the emergence of new femininities and masculinities within organizational contexts The book is ideal reading for researchers working in the area of Gender and Organization Studies but is also of interest to researchers in the areas of Cultural Studies Media Studies Women s Studies and Sociology

A Broken Silence Lena Myers, 2002-02-28 This book addresses the interlocking systems of race and gender in institutions of higher education in America The study is based on empirical data from African American women of various disciplines in faculty and administrative positions at traditionally white colleges and universities It focuses primarily on narratives of the women in terms of how they are affected by racism as well as sexism as they perform their duties in their academic environments The findings suggest that a common thread exists relative to the experiences of the women The book challenges and dispels the myth that Black progress has led to equality for African American women in the academy The results of this study make it even more critical that the voices of African American women be heard and their experiences in the academy be expressed This may be one way to inform academic and lay readers that racism and sexism are not dead

Racism, Sexism, and the World-System Joan Smith, 1988-12-14 This is a long overdue addition to a series of books and edited collections spawned initially from Immanuel Wallerstein s The Modern World System These 12 theoretically informed

case studies from a 1987 conference add considerable insight to the heavy emphasis of the World Systems approaches on macroeconomic determinism with the inclusion of ideological and cultural factors Most cases address how capital uses social categories to cheapen industrial labor costs in Asia and the US Two illuminating chapters analyze the minoritization of immigrants and variations in masculinity norms as aspects of this labor cheapening process Choice A collection of papers presented at the Eleventh Annual Political Economy of the World System Conference this volume illustrates the degree to which fundamental processes of the world system entail racist and sexist practices The contributors have taken as their focus the attempt to both explain in social political or historical terms the pervasiveness of racism and sexism and trace the relationship between the two and the organization of the contemporary political economy Taken together their papers offer a more coherent treatment of the problem than has heretofore been available By integrating an understanding of racial and sexual oppression with that of other processes that constitute the world economy they offer new insights into the workings of the world system and new hope for concerted efforts to eliminate racism and sexism Many of the essays included here take the form of theoretically informed case studies Detailed historical works explore such issues as labor force formation in the New York garment industry in the late 19th and early 20th century and competition in the world textile industry in the latter half of the 1880s A critical analysis of the construction of census categories and an examination of the myths of differential ethnic success provide real world examples of discrimination and its effects A number of papers focus on the implications of our understanding of racial and sexual oppression for political struggle while others assess the impact of women s exclusion from the workforce on power relationships in the home Two major theoretical pieces address the issues in more general terms emphasizing the circumstances under which racism and sexism are created and recreated in various contexts Taken as a whole the volume provides a necessary and enlightening re examination of the role of race and gender in the world economy
