,2024-02-07 INTRODUCTION BEING EXCITED AND AROUSED FOR SEX is a wonderful feeling For the most part we could say this is half the battle a requirement even but unfortunately simply wanting sex is not always the be all and end all to having great sex Sometimes finding creative and fun ways to do it can be a challenge Sex like all things can become monotonous boring or lackluster if done often enough in the same way While not all people get tired of sex even when they do it a lot it can be nice to learn a new thing or two With time our bodies change and with experience so do our minds Expanding our sexual repertoire can teach us not only about our partners but also about ourselves A book on classic sex positions and their variations is not just for those seeking new variety adventure and possibilities This is also a great guide for beginners who don't know where to start and for those who are curious about learning about sex and their bodies But you don't have to be a beginner or seeking excitement There is something for everyone in these pages Some important things to keep in mind as you explore these varieties of sex positions Not every position is going to be great for everyone Although there is probably a little something for every sexual being within these pages it is important to remember that everybody is different Some poses are harder for certain body types Some poses will stimulate some and won't do anything for others If something doesn't seem like it is working for you don't sweat it Come back to it at a later time or move on Most sexual poses are easier if you feel comfortable in your environment and are relaxed It is a little known fact that when your muscles are relaxed your body is more open and flexible Feeling safe with your partner helps and of course so does being aroused And the two typically go hand in hand Communicate with your partner This may seem obvious but it's surprising how much we tend to hold back during sex Don't hesitate to get the conversation going around sex Be generous with your words Ask your partner how it feels and let him or her know what is working for you and what isn't Telling your partner ahead of time what you like dislike are willing to do and would like to explore are great ways to break the ice around sex and start building a sexual repertoire together Communication can also be in the form of body language or moans and groans which nonverbally suggest that something feels good Be sure to pay attention to these Last but not least dirty talk is also a form of communication especially when used during sex and can take each variation to the next level Remember that sex is not only about penetration Learn to incorporate your hands fingers and mouth not just your genitals When we go into sex with just the genitals in mind we inevitably ignore other aspects of feeling and touch By making sex a full body experience we foster mind body connection The anus perineum testicles breasts and nipples for both men and women are all highly erogenous zones Don't ignore these areas Sex does not have to be goal oriented The positions in this book focus on man woman positions so each variation involves an aspect of intercourse This does not mean that intercourse must take place for the pose to be successful nor does it mean that orgasm is a requirement either Attempting the pose alone can provide a lot of fun and

excitement Remember to enjoy the experience and not focus on the goal of orgasm Speaking of orgasm considering the fact that most of the poses include an element of penis vaginal penetration it is important to note that vaginal orgasms are not the norm for a majority of women While some women do experience the G spot orgasm this is not going to be true for every woman The G spot is located inside the vagina on the anterior wall More common is the clitoral orgasm The clitoris is found outside of the vagina near the front of her labia and above the urethra The vagina does have some sensitive spots such as the G spot however in terms of nerve endings relatively speaking the clitoris is much more sensitive Consider adding sex toys to your sexual repertoire Including toys allows us to think outside of the box and encourages a healthy sexuality that emphasizes growth and learning When we add toys we also remind ourselves that sex is about having fun and experimenting with what feels good I can't speak highly enough about lubrication Whether or not we are naturally lubricated is not necessarily an indication of whether or not we are emotionally aroused The two are not mutually exclusive If both partners agree this is something they want then lube is your best friend Having a few good types of lube on hand is a good idea Water based lubes are best if using condoms Organic lubes will have the least irritants Silicone based lubes will be the slickest but may not be great when used with silicone toys Avoid lubes with parabens and glycerin because they can cause irritation There are a lot of lubes out there so experiment to find what works for you and your partner Condoms are always a good idea unless you are in a long term monogamous relationship and or both parties are sharing sexually transmitted disease STD sexually transmitted infection STI results Another option for safe sex is mutual masturbation Whether you are touching yourself and or touching each other if no fluids are exchanged you are less likely to contract an STI or HIV Also mutual masturbation can be a highly erotic experience connecting two people in a very intimate way So definitely don't count this out Sex has endless possibilities when you open your mind and let your imagination run wild So get out there start exploring and start growing and learning Whether you are seeking daring adventures or just trying to learn something new remember to be safe and have fun
