Sexuality, Human Rights, and Public Policy Chima J. Korie, Elizabeth O. Sexual and Reproductive Health Paul Van Look, Kristian Heggenhougen, Stella R. Quah, 2011-01-10 This volume presents the highlights of current global thinking about sexual and reproductive health Major

changes have taken place in the last 15 years in the way decision makers think about the subject and the manner in which programmes deliver comprehensive sexual and reproductive health services The turning point was the International Conference on Population and Development ICPD held in Cairo Egypt in 1994 ICPD was a watershed for several reasons First more than in any of the preceding United Nations population conferences the issue of population was clearly placed as being central to sustainable development Second the narrow focus on population growth the population bomb which had been a neo Malthusian concern and preoccupation ever since the Club of Rome published its 1972 report Limits to Growth was replaced by the comprehensive concept of sexual and reproductive health Third and linked to the definition and introduction of the reproductive health concept was the strong call for a paradigm shift away from a policy environment driven by demographic considerations sometimes to the point of using coercion in family planning services in order to reach demographic targets to an environment that recognized the right of individuals to make their own choices And last but not least ICPD as well as the Fourth World Conference on Women FWCW held the following year in Beijing People s Republic of China strongly emphasized that the rights of women and men to good sexual and reproductive health are firmly grounded in universal human rights Provided by publisher

Human Rights and Homosexuality in Southern Africa Chris Dunton, Mai Palmberg, 1996 At the 1995 Zimbabwe International Bookfair the organisation of Gays and Lesbians in Zimbabwe was prevented from taking part This opened up an unprecedented debate in southern Africa which is conveyed in this report together with a survey of African views on homosexuality a global overview on homosexuality and the law and an address list of human rights organizations and organizations working for gay and lesbian rights A first hand report and analysis of the new book fair drama in Harare 1996 is included in the new edition

Sexual Violence and Armed Conflict Janie L. Leatherman, 2013-04-26 Every year hundreds of thousands of women become victims of sexual violence in conflict zones around the world in the Democratic Republic of Congo alone approximately 1 100 rapes are reported each month This book offers a comprehensive analysis of the causes consequences and responses to sexual violence in contemporary armed conflict It explores the function and effect of wartime sexual violence and examines the conditions that make women and girls most vulnerable to these acts both before during and after conflict To understand the motivations of the men and occasionally women who perpetrate this violence the book analyzes the role played by systemic and situational factors such as patriarchy and militarized masculinity Difficult questions of accountability are tackled in particular the case of child soldiers who often suffer a double victimization when forced to commit sexual atrocities The book concludes by looking at strategies of prevention and protection as well as new programs being set up on the ground to support the rehabilitation of survivors and their communities Sexual violence in war has long been a taboo subject but as this book shows new and courageous steps are at last being taken at both local and international level to end what has been called the greatest silence in history

Feminist Engagement with International Criminal Law Eithne Dowds, 2020-01-23 This work introduces and further

develops the feminist strategy of norm transfer the proposal that feminist informed standards created at the level of international criminal law make their way into domestic contexts Situating this strategy within the complementarity regime of the International Criminal Court ICC it is argued that there is an opportunity for dialogue and debate around the contested aspects of international norms as opposed to uncritical acceptance The book uses the crime of rape as a case study and offers a new perspective on one of the most contentious debates within international and domestic criminal legal feminism the relationship between consent and coercion in the definition of rape In analysing the ICC definition of rape it is argued that the omission of consent as an explicit element is flawed Arguing that the definition is in need of revision to explicitly include a context sensitive notion of consent the book goes further setting out draft legislative amendments to the ICC Elements of Crimes definition of rape and its Rules of Procedure and Evidence Turning its attention to the domestic landscape the book drafts amendments to the United Kingdom UK Sexual Offences Act 2003 and to the Youth Justice and Criminal Evidence Act 1999 thereby showing how the revised version of the ICC definition can be applied in context of the UK

Equality of Opportunity for Sexual and Gender Minorities 2024 The World Bank, 2024-09-10 By assessing discrimination in laws regulations and policies the Equality of Opportunity for Sexual and Gender Minorities EQOSOGI initiative examines institutionalized challenges encountered by sexual and gender minorities This second edition of the EQOSOGI report expands its coverage from 16 to 64 countries representing different geographic areas income levels legal traditions and inclusiveness of sexual and gender minorities ensuring a diverse and holistic representation of the issues EQOSOGI presents indicators to identify differences in the legal and policy environment for sexual and gender minorities in six areas Decriminalization Access to Education Access to Labor Markets Access to Services and Social Protection Civil and Political Inclusion and Protection from Hate Crimes The indicators are also disaggregated into the three dimensions of sexual orientation gender identity and expression and sex characteristics Building a global knowledge base on laws and policies affecting sexual and gender minorities is at the foundation of advocacy and policy change especially because sexual and gender minorities are largely excluded from development efforts By collecting and sharing data on national frameworks the EQOSOGI study aims to promote a dialogue on equality of opportunity and to encourage law and policy reforms that enable sexual and gender minorities to fully participate in the economy and share in the benefits of development It also aims to promote a deeper understanding of the legal hurdles hindering inclusive job creation and private sector development and ultimately to encourage reforms that are conducive to poverty reduction and shared prosperity on a liveable planet The report also offers a deep dive into discriminatory legal practices in these areas and how they relate to socioeconomic outcomes for sexual and gender minorities It provides areas of policy engagement to prevent discrimination based on sexual orientation gender identity and expression and sex characteristics and to promote increased social and economic inclusion

Sexual Orientation and the Law James M. Donovan, 2006 This bibliography was conceived as an update to the 1994 original Law

Library Journal Winter 1994 rather than as a wholly new work For that reason its design follows closely the topical outline of its predecessor Alterations to that outline provide suggestive indicators of the extent to which legal realities have changed in the interim This version also features an attention to foreign and international aspects of sexual orientation law that were missing in the prior documents Publisher's website **Sexuality and Human Rights** Helmut Graupner, 2005 *Hastings International and Comparative Law Review*, 1996 **Human Sexuality** Brian M. Sexual Terrorism in the Eastern Provinces of the Democratic Republic of Congo** Stefan Kirchner, 2008-11-17 Document from the year 2008 in the subject Law European and International Law Intellectual Properties Universit Paris Sorbonne Paris IV language English abstract About 5 4 million people have been killed in the wars in the Democratic Republic of Congo D R C the former Zaire 45 000 die every month and hundreds of thousands of women have been raped here in recent years Wartime rapes are anything but new and have been employed not only to terrorize the population but also as weapon of genocide in Rwanda Bosnia and Darfur The Eastern Congolese provinces of North and South Kivu have been affected by particular gruesome acts of violence and thousands of victims suffer from rape induced fistulae ruptures of the walls which separate the victim's vagina from her rectum According to UN staff and doctors in the region all armed groups in the region are involved in rapes and despite the 2002 Pretoria Accord which put an official end to the war attacks and rapes continue to this very day Many survivors are forced out of their homes and their families abandoned and left to fend for themselves Therefore apart from medical treatment and psychological counseling there is a strong demand for justice But due to the weak position of women in Congolese society justice is much harder to get by than medical treatment Although the Congolese Penal Code and Military Penal Code penalize these crimes the reaction by the Congolese government to the atrocities remains insufficient making a solution based on Congolese criminal law unlikely The practical application of the D R C's domestic laws is found wanting and the law does not have the deterrent effect which is required to prevent future atrocities also due to the traditional position of women in Congolese society continues to be reflected in the law According to Art 448 of the D R C's family code a married woman has to obtain her husband's permission to bring a case to court which provides a major obstacle on the road to justice This book deals with the multidimensional aspects of the problem which range from medicine and psychology to social issues and the quest for justice In the latter part we will examine not only the background by looking at relevant rules of International Human Rights Law and International Humanitarian Law but also look at legal responses to these crimes both on a national level in the D R C as well as on an international level and with the question of how justice can be achieved for rape victims in a country ravaged by war in which women continue to be second class citizens **When the Nazis Came to Skokie** Philippa Strum, 1999 Strum political science City U of New York Brooklyn describes the events when a neo Nazi group
