Copyright Vigilantes Ezra Claverie, 2024-05-28 Copyright Vigilantes Intellectual Property and the Hollywood Superhero explains superhero blockbusters as allegories of intellectual property relations In movies based on characters owned by the comics duopoly of DC and Marvel no narrative recurs more often than a villain s attempt to copy the superhero s unique powers In this volume author Ezra Claverie explains this fixation as a symptom of the films mode of production Since the 1930s the dominant American comics publishers have treated the creations of artists and writers as work for hire such that stories and characters become company property Thus publishers avoided sharing the profits both from magazine sales and from licensing characters into other media For decades creators have challenged this regime demanding either shares of profits or outright ownership of their creations Now that the duopoly rents licenses and adapts superheroes for increasingly expensive franchises and for growing international audiences any challenge to intellectual property relations threatens a production regime worth billions of dollars Duopoly movies therefore present any attempt to break the superhero s monopoly on their powers as the scheme of terrorists mad scientists or space Nazis assuaging studio anxieties and revealing the fears of those who benefit most from the real world ownership of superheroes Weaving together legal analysis Marxist political economy and close readings of movies Copyright Vigilantes explains the preoccupations of Hollywood s leading genre

Troubling Masculinities Glen Donnar,2020-07-23 Troubling Masculinities Terror Gender and Monstrous Others in American Film Post 9 11 is the first multigenre study of representations of masculinity following the emergence of violent terror as a plot element in American cinema after September 11 2001 Across a broad range of subgenres including disaster melodrama monster movies postapocalyptic science fiction discovered footage and home invasion horror action thrillers and frontier westerns author Glen Donnar examines the impact of terror Others from Arab terrorists to giant monsters especially in relation to cinematic representations in earlier periods of national turmoil Donnar demonstrates that the reassertion of masculinity and American national identity in post 9 11 cinema repeatedly unravels across genres Taking up critical arguments about Hollywood s attempts to resolve male crisis through Orientalizing figures of terror he shows how this failure reflects an inability to effectively extinguish the threat or frightening difference of terror The heroes in these movies are unable to heal themselves or restore order often becoming as destructive as the threats they are supposed to be fighting Donnar concludes that interrelated anxieties about masculinity and nationhood continue to affect contemporary American cinema and politics By showing how persistent these cultural fears are the volume offers an important counternarrative to this supposedly unprecedented moment in American history
