**Guide to Reprints** ,2009      **Practical Navigation (1680)** John Seller,1993      **A Biography of a Map in Motion**

Christian J. Koot,2018 Reveals the little known history of one of history s most famous maps and its maker Tucked away in a near forgotten collection Virginia and Maryland as it is Planted and Inhabited is one of the most extraordinary maps of colonial British America Created by a colonial merchant planter and diplomat named Augustine Herrman the map pictures the Mid Atlantic in breathtaking detail capturing its waterways coastlines and communities Herrman spent three decades travelling between Dutch New Amsterdam and the English Chesapeake before eventually settling in Maryland and making this map Although the map has been reproduced widely the history of how it became one of the most famous images of the Chesapeake has never been told A Biography of a Map in Motion uncovers the intertwined stories of the map and its maker offering new insights into the creation of empire in North America The book follows the map from the waterways of the Chesapeake to the workshops of London where it was turned into a print and sold Transported into coffee houses private rooms and government offices Virginia and Maryland became an apparatus of empire that allowed English elites to imaginatively possess and accurately manage their Atlantic colonies Investigating this map offers the rare opportunity to recapture the complementary and occasionally conflicting forces that created the British Empire From the colonial and the metropolitan to the economic and the political to the local and the Atlantic this is a fascinating exploration of the many meanings of a map and how what some saw as establishing a sense of local place could translate to forging an empire

Undaunted Mind EMERITUS PROFESSOR OF ENGLISH KEVIN J. HAYES, Kevin J. Hayes,2025-05-14 An exploration of the mind of one of America s most beloved Founding Fathers and most brilliant minds through the books he read and his social circles in the United States and Europe Arguably the most intellectual creative cosmopolitan and curious of the Founding Fathers Benjamin Franklin is the only top tier Founder not to have served as president Despite not becoming the Chief Executive Franklin played an active role in American politics and served the aspiring and young United States in the key European capitals His prodigious reading and appetite for learning are epic As he did in works about Thomas Jefferson and George Washington Kevin J Hayes interprets the life and mind of Franklin through what he read Undaunted Mind tells the story of the development of Franklin s intellect starting with the earliest books he read as a child before examining his formal schooling and his independent study after his father pulled him from school As an apprentice in his brother s printing house Franklin s intellectual life developed through his contact with the Couranteers the group of his brother s friends who contributed to his newspaper and through his attention to his brother s excellent office library After Franklin ran away to Philadelphia he developed a new group of friends all of whom loved reading In many ways the story of Franklin s intellectual odyssey is the story of the friends he made along the way His time in London in his late teens introduced him to several important intellectuals who encouraged him to develop his mind After returning to Philadelphia from London he and some

friends formed the Junto a club for mutual improvement that made reading and writing important activities With other members of the Junto he formed the Library Company of Philadelphia the first subscription library in colonial America His role as a printer put him in contact with the best eighteenth century American writing and kept a steady flow of imported books coming from Britain He became a scientist assembling a great scientific library which helped his electrical research An educational reformer Franklin founded the Philadelphia Academy which would become the University of Pennsylvania As agent for the Pennsylvania Assembly Franklin lived in London for many years where he befriended some of Britain s greatest minds Different concentrations of books in his library reveal Franklin s interests in travel and exploration warfare and slavery His time in Paris toward the end of his life gave Franklin another great intellectual experience but he ultimately returned home to live the last five years of his life in Philadelphia where he imparted his knowledge and experience to a new generation of Americans In this gripping work Benjamin Franklin is given a biography as rich and complex as his own intellectual life by master literary historian Kevin J Hayes      **The Social History of English Seamen, 1485-1649** Cheryl A. Fury,2012 Investigates the lives of common sailors engaged in commerce exploration privateering and piracy and naval actions during Tudor and Stuart periods      **Tides in the Affairs of Men** Cheryl Fury,2001-12-30 The age of maritime expansion and the Anglo Spanish War have been analyzed by generations of historians but nearly all studies have emphasized events and participants at the top This book examines the lives and experiences of the men of the Elizabethan maritime community during a particularly volatile period of maritime history The seafaring community had to contend with simultaneous pressures from many different directions Shipowners and merchants motivated by profit hired seamen to sail voyages of ever increasing distances which taxed the health and capabilities of 16th century crews and vessels International tensions in the last two decades of Elizabeth s reign magnified the risks to all seamen whether in civilian employment or on warships The advent of open warfare with Spain in 1585 resulted in a privateering war against the Spanish Empire seen by some seamen as one of the few boons of the conflict The other major development was the introduction of impressment a deeply resented aspect of any naval war and one that brought great hardship to seamen and their families The relationship between the Crown and its seafarers was a pull haul between a state beset by financial problems of fighting a protracted war on several fronts and employees forced to work in dangerous conditions for substandard wages The stresses of the war years tell us much about the dynamic of the maritime community their expectations and their coping strategies      Strategy and the Sea N. A. M. Rodger,Jeremiah Ross Dancy,Benjamin Darnell,Evan Wilson,2016 An important book presenting the latest insights by the leading world authorities on naval history This book presents a wide range of new research on many aspects of naval strategy in the early modern and modern periods Among the themes covered are the problems of naval manpower the nature of naval leadership and naval officers intelligence naval training and education and strategic thinking and planning The book is notable for giving extensive consideration to navies other than those of Britain its empire and the

United States It explores a number of fascinating subjects including how financial difficulties frustrated the attempts by Louis XIV's ministers to build a strong navy how the absence of centralised power in the Dutch Republic had important consequences for Dutch naval power how Hitler's relationship with his admirals severely affected German naval strategy during the Second World War and many more besides The book is a Festschrift in honour of John B Hattendorf for more than thirty years Ernest J King Professor of Maritime History at the US Naval War College and an influential figure in naval affairs worldwide N A M Rodger is Senior Research Fellow at All Souls College Oxford J Ross Dancy is Assistant Professor of Military History at Sam Houston State University Benjamin Darnell is a D Phil candidate at New College Oxford Evan Wilson is Caird Senior Research Fellow at the National Maritime Museum Greenwich Contributors Tim Benbow Peter John Brobst Jaap R Bruijn Olivier Chaline J Ross Dancy Benjamin Darnell James Goldrick Agust n Guimer Paul Kennedy Keizo Kitagawa Roger Knight Andrew D Lambert George C Peden Carla Rahn Phillips Werner Rahn Paul M Ramsey Duncan Redford N A M Rodger Jakob Seerup Matthew S Seligmann Geoffrey Till Evan Wilson

The View from the Masthead Hester Blum, 2012-09-01 With long solitary periods at sea far from literary and cultural centers sailors comprise a remarkable population of readers and writers Although their contributions have been little recognized in literary history seamen were important figures in the nineteenth century American literary sphere In the first book to explore their unique contribution to literary culture Hester Blum examines the first person narratives of working sailors from little known sea tales to more famous works by Herman Melville James Fenimore Cooper Edgar Allan Poe and Richard Henry Dana In their narratives sailors wrote about how their working lives coexisted with indeed mutually drove their imaginative lives Even at leisure they were always on the job site Blum analyzes seamen's libraries Barbary captivity narratives naval memoirs writings about the Galapagos Islands Melville's sea vision and the crisis of death and burial at sea She argues that the extent of sailors literacy and the range of their reading were unusual for a laboring class belying the popular image of Jack Tar as merely a swaggering profane or marginal figure As Blum demonstrates seamen's narratives propose a method for aligning labor and contemplation that has broader applications for the study of American literature and history
