himself one who is ever ready to sacrifice his own pleasures for the sake of other people and who loves Truth Goodness and Wisdom for their own sake not for the benefit they may confer is a Theosophist But it is quite another matter to put oneself upon the path which leads to the knowledge of what is good to do as to the right discrimination of good from evil a path which also leads a man to that power through which he can do the good he desires often without even apparently lifting a finger Moreover there is one important fact with which the student should be made acquainted Namely the enormous almost limitless responsibility assumed by the teacher for the sake of the pupil From the Gurus of the East who teach openly or secretly down to the few Kabalists in Western lands who undertake to teach the rudiments of the Sacred Science to their disciples those western Hierophants being often themselves ignorant of the danger they incur one and all of these Teachers are subject to the same inviolable law From the moment they begin really to teach from the instant they confer any power whether psychic mental or physical on their pupils they take upon themselves all the sins of that pupil in connexion with the Occult Sciences whether of omission or commission until the moment when initiation makes the pupil a Master and responsible in his turn There is a weird and mystic religious law greatly revered and acted upon in the Greek half forgotten in the Roman Catholic and absolutely extinct in the Protestant Church It dates from the earliest days of Christianity and has its basis in the law just stated of which it was a symbol and an expression This is the dogma of the absolute sacredness of the relation between the god parents who stand sponsors for a child These tacitly take upon themselves all the sins of the newly baptized child anointed as at the initiation a mystery truly until the day when the child becomes a responsible unit knowing good and evil Thus it is clear why the Teachers are so reticent and why Chelas are required to serve a seven years probation to prove their fitness and develop the qualities necessary to the security of both Master and pupil Occultism is not magic It is comparatively easy to learn the trick of spells and the methods of using the subtler but still material forces of physical nature the powers of the animal soul in man are soon awakened the forces which his love his hate his passion can call into operation are readily developed But this is Black Magic Sorcery For it is the motive and the motive alone which makes any exercise of power become black malignant or white beneficent Magic It is impossible to employ spiritual forces if there is the slightest tinge of selfishness remaining in the operator For unless the intention is entirely unalloyed the spiritual will transform itself into the psychic act on the astral plane and dire results may be produced by it The powers and forces of animal nature can equally be used by the selfish and revengeful as by the unselfish and the all forgiving the powers and forces of spirit lend themselves only to the perfectly pure in heart and this is Divine Magic
