Prairie Capitalism Power And Influence In The New West Canada In Transition Series:

Goodlands Frances W. Kaye, 2011 Amer European settlement of the Great Plains transformed bountiful Native soil into pasture and cropland distorting the prairie ecosystem that the peoples who originally populated the land had long understood and were able to use wisely Settlers justified this transformation with the unexamined premise of deficiency according to which the vast area of the Great Plains was inadequate in flora and fauna and lacking in the advances of modern civilization Drawing on history literature art and economic theory Frances W Kaye counters the argument of deficiency pointing out that in its original ecological state no region can possibly be incomplete Goodlands examines the settlers misguided theory discussing the ideas that shaped its implementation the forces that resisted it and Indigenous ideologies about what it meant to make good use of the land By suggesting methods for redeveloping the Great Plains that are based on native cultural values Kaye points the way to a balanced and sustainable future for the region in the context of a changing globe Frances W Kaye is professor of English at the University of Nebraska She is the author of Hiding the Audience Arts and Arts Institutions on the Prairies Kaye divides her time between a farmstead outside Lincoln Nebraska and a house in Calgary so that she may always be close to the prairie land that drives her research [Art of Sharing](#) Mary Janigan, 2020-07-23 In 1957 after a century of scathing debates and threats of provincial separation Ottawa finally tackled the dangerous fiscal inequalities among its richer and poorer provinces Equalization grants allowed the poorer provinces to provide relatively equal services for relatively equal levels of taxation The Art of Sharing tells the dramatic history of Canada's efforts to save itself The introduction of federal equalization grants was controversial and wealthier provinces such as Alberta wanting to keep more of their taxpayers money for their own governments continue to attack them today Mary Janigan argues that the elusive ideal of fiscal equity in spite of dissent from richer provinces has helped preserve Canada as a united nation Janigan goes back to Confederation to trace the escalating tensions among the provinces across decades as voters demanded more services to survive in a changing world She also uncovers the continuing contacts between Canada and Australia as both dominions struggled to placate disgruntled member states and provinces that blamed the very act of federation for their woes By the mid twentieth century trapped between the demands of social activists and Quebec's insistence on its right to run its own social programs Ottawa adopted non conditional grants in compromise The history of equalization in Canada has never been fully explored Introducing the idealistic Canadians who fought for equity along with their radically different proposals to achieve it The Art of Sharing makes the case that a willingness to share financial resources is the real tie that has bound the federation together into the twenty first century [Prairie Capitalism](#) John Richards, Larry Pratt, 1979
