Movement: Associative History 1971-2011 Laurence Binet, Martin Saulnier, 2019-06-04 When Médecins Sans Frontières MSF was founded in 1971 it was founded with both international and associative dimensions International because it wouldn't have made sense for MSF France on its own to aid threatened populations around the world and associative because civil law in France especially the 1901 law governing charitable bodies was perfectly suited to the MSF organisation's guiding precepts which are democratic and selfless in nature Yet MSF's development from a small purely French organisation to an international associative movement was never carefully planned or particularly smooth MSF's development was the result of various compromises between the movement's leaders with their individual agendas and the integration of fait accompli when necessary The evolving modifications were debated at length to ensure that concerns raised were legitimate and that there was agreement for decisions made The nature and the validity of MSF's leadership were regularly challenged as was the question of how MSF should grow while remaining true to its humanitarian precepts This case study elaborates the history of the MSF movement from inception in 1971 through 2011 when MSF legitimised an international governance system and architecture The study is divided in two episodes Episode One reviews MSF's first three decades 1971-2000 Episode Two is about the challenges of the early 21st century from 2001 to 2011

Behringer, 2012-12-20 Middle power states such as Canada or Denmark are often thought of as followers of great powers rather than significant actors in global security Challenging this view this book highlights how middle powers have in fact showed great leadership by developing a human security agenda that focuses on countering threats to human beings rather than to nation states The work examines how coalitions of middle powers have performed through five case studies the formation of the Multinational Standby High Readiness Brigade for United Nations Operations SHIRBRIG the realization of the Ottawa Mine Ban Treaty the establishment of the International Criminal Court the regulation of the legal trade in small arms and light weapons and the adoption of the Responsibility to Protect R2P principle Furthermore the book explores how the human security initiatives were shaped by the middle powers' choices of diplomatic strategy and how they were affected by the reactions of the hegemonic United States The Human Security Agenda will appeal to those studying international relations and global security as well as foreign policy and international organizations
