emphasize the role of the imaginative intellect in creating, criticizing, and constructing knowledge that is not only new but also has the capacity to transform human understanding. The book is divided into three content areas that provide a unique framework for carrying out inquiry in the visual arts. *Contexts for Visual Arts Research* is a historical review that positions the visual arts as a culturally grounded and institutionally bound area of artistic and educational inquiry. *Theorizing Visual Arts Practice* presents the thesis that visual arts practice is a theoretically robust area of inquiry and a transformative approach to creating and critiquing knowledge. *Visual Arts Research Practices* describes a range of strategies and approaches to planning and carrying out visual arts research. This is a historical review that positions the visual arts as a culturally grounded and institutionally bound area of artistic and educational inquiry. *Art Practice as Research* is perfectly suited as a text for courses in art education, the visual arts, as well as general research methods courses in education and the humanities. This will also be an invaluable reference for anyone with an interest in interdisciplinary research in the social sciences and the role of imaginative inquiry in human understanding.

A blog by Graeme Sullivan welcoming contributors interested in discussing ideas and sharing information about art as a form of research. Praise for this text: Sullivan challenges our assumptions about what constitutes research practices and in doing so presents a ground-breaking analysis for visual arts practice as research. This compelling image-text book opens the possibilities for the construction of new forms of knowledge in our increasingly visual world.

Dipti Desai, New York University
Sullivan provides a timely and excellent introduction to the emerging field of visual cognition and educational research.

Pradeep A. Dhillon, University of Illinois
Art Practice as Research is long overdue.

Graeme Sullivan eloquently crafts a methodology text and articulates for contemporary visual artist-researchers how arts practices are in fact rich forms of research inquiry.

Rita L. Irwin, University of British Columbia, Canada
Sullivan's text is an important addition to the literature associated with research, critical inquiry, and arts education. I wish that such a text would have been available at the time that I was working on my dissertation. I will recommend it to my graduate students and colleagues.

Doug Blandy, University of Oregon
Art Practice moves through a description of accepted methods of research in the sciences. A person interested in art research would be well served by the foundation Sullivan provides.

Design and Crime Hal Foster, 2003
In the first half of this book, Hal Foster surveys our new political economy of design, exploring the marketing of culture and the branding of identity, the development of spectacle architecture, and the rise of global cities. In the second half, he examines the historical relations of modern art and the modern museum, the conceptual vicissitudes of art history and visual studies, the recent travails of art criticism, and the double aftermath of modernism and postmodernism. Written in a lively style, *Design and Crime* offers historical sketches and contemporary test cases in an attempt to illuminate the conditions for critical culture in the present.

artistic contexts and discussing them from a variety of viewpoints Issues of gender and ethnicity criticisms of the accepted canon of modern art and important social and political influences on the institutions of art are woven into the discussion of key artists such as Picasso Matisse Pollock and Warhol and movements such as Cubism Surrealism Abstract Impressionism and Minimal Art **Becoming Art** Howard Morphy, 2020-08-28 Thirty years ago Australian Aboriginal art was little more than a footnote to world art Today it is considered to be an important contemporary art movement often promoted as being connected to a deep cultural past *Becoming Art* provides a new analysis of the shifting cultural and social contexts that surround the production of Aboriginal art Transcending the boundaries between anthropology and art history the book draws on arguments from both disciplines to provide a unique interdisciplinary perspective that places the artists themselves at the centre of the argument Western art history has traditionally regarded Aboriginal art as distanced from time and place *Becoming Art* uses the recent history of Aboriginal art to challenge some of the presuppositions of western art discourse and western art worlds It argues for a more cross cultural perspective on world art history *The Journal of Aesthetic Education* ,1987 Includes special issues *Semiotica* ,1989 *Courses and Degrees* Stanford University, 1981 **College of Arts and Sciences** Indiana University.
