number of the basses given will carry many different melodies above them As an illustration of this point the author may mention that he some time since gave one of the basses in the additional exercises no 12 to Chapter XIII to several of his best pupils at the Royal Academy with special directions to write as good a melody above it as they could Five or six hymn tunes were the result no two of which resembled one another while not one was identical with that in the key of G yet all were good tunes The resources both of melody and harmony are practically inexhaustible and it is to aid the student in exploring them that this key is published About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are
