1

## Keep active

'Active' varies depending on mobility.

NHS Inform suggests 150 minutes per week to reduce the risk of falls.

2

## Eat & drink well

Eating a healthy, balanced diet can reduce light headedness, dehydration, tiredness and depression.

3

## Look after vision & hearing

Regular eye and hearing tests ensures you or your loved one can spot any potential hazards as well as hear the surrounding environment.

4

## Manage medication

Check the side effects on any medication you or your loved one is taking and discuss risks with a doctor or pharmacist.

5

## Look after bone health

As we age, our bones often become weaker and more fragile, which increases susceptibility to fractures from falls.

6

## Adapt your home

Ensure your home is safe; secure loose rugs, electrical cords, clutter and uneven flooring. Check there's adequate lighting and consider installing grab bars and hand rails.
