Crushed Ken Buck, 2023-01-17 AMERICAN DEMOCRACY IS AT RISK No one conservative or liberal should be comfortable with a few Silicon Valley oligarchs having a monopoly over the marketplace of ideas and with it democracy itself Senator Ted Cruz When the Founding Fathers drafted our Constitution they had no idea there would be a Big Tech nor any concept of the immense power these companies would wield over our people But the Fathers did provide mechanisms a system of check and balances for the people to stop dangerous monopolies like Google Facebook Apple and Amazon from suffocating our business and political life Few know more about these mechanisms than Rep Ken Buck who has been a leader in Congress fighting against the unchecked power of Big Tech In CRUSHED Big Tech's War on Free Speech Buck exposes the bullying and predatory behavior from the Big Tech giants who have used their technologies and their unbelievable market shares to stifle commerce and censor free speech He spells out the inside details of how these companies restrict free markets stop competition increase prices and ultimately hurt consumers Even worse Big Tech companies like Google Twitter and Facebook are actively censoring conservative news and views as they openly manipulate information provided to voters Ken Buck shows how these tech

giants are true monopolies and their concentrated power pose a serious danger for our democracy In contrast to the robber barons of the Gilded Age who simply posed a threat to commerce Big Tech threatens the very core of our political system They control the flow of information shared with the public for their own financial and political gain In CRUSHED Ken Buck argues that while Americans are under siege by Big Tech we are not destroyed We can still take on Big tech fight back and even win The future of our nation depends on it he says IT IS TIME TO FIGHT BACK The Metaverse: And How It Will Revolutionize Everything Matthew Ball, 2022-07-19 INTERNATIONAL BESTSELLER United States Canada United Kingdom and China Wall Street Journal Associated Press Nielsen Bookscan Publishers Weekly USA Today Toronto Star Globe investigates the role of Web3 blockchains and NFTs and predicts Metaverse winners and losers Most importantly he examines many of the Metaverse s almost unlimited applications The internet will no longer be at arm s length instead it will surround us with much of our lives labor and leisure taking place inside the Metaverse Bringing clarity and authority to a frequently misunderstood concept Ball foresees trillions of dollars in new value and the radical reshaping of society
