 investment to one on services and consumption by providing insight that help shape effective strategy Drawing from over 50
 000 interviews with entrepreneurs venture capitalists private equity investors private Chinese companies and multinationals
 this book describes how Chinese firms are increasingly focused on innovation rather than copying what worked in America
 and how consumers are evolving with their hopes dreams and aspirations China s growth model of the last three decades is
 becoming increasingly ineffective as relying on heavy investment and exports is becoming less and less feasible Fifty percent
 of China s growth in 2013 stemmed from consumption the government is establishing a Free Trade zone in Shanghai and
 ending the dominance of state owned enterprises This book provides a roadmap for companies and investors looking to
 navigate these changes and capture emerging trends with deep insight and practical guidance on what innovation looks like
 in the new China Survey the development of innovation taking place in China s economy from an insider s perspective
 Consider the changes that must take place to shore up the broken growth model Examine the consumer trends emerging in
 the midst of rapid market evolution Understand how China s rise will impact its neighbors like Japan Vietnam Indonesia and
 Cambodia China s dramatic shift toward consumption presents a tremendous opportunity for foreign business but traditional
 tactics are outdated at best financially fatal at worst as local competitors focus on innovation and move up the value chain
 and as consumers look for new brands and categories to spend money on New strategies are needed to keep pace with the
