Dear Mr. Jackson,

As a longtime admirer of Kohls, I was excited to see your opening for a sales associate, as seen on the Indeed job board. As a sales associate professional with over 10 years of experience, I am confident I have the qualifications required to become a beneficial member of your team.

If you take a moment to review my resume, you will see that I've successfully progressed in my career, advancing to challenging positions in the retail field. My background includes roles such as sales associate at Target and cashier at Walmart that have allowed me to master leadership and team development skills that are crucial for the job.

In my most recent position as sales associate at Target, I had the opportunity to develop the skills and experience necessary to succeed in your sales associate role. Examples of my relevant experience include dealing with dissatisfied customers and providing excellent customer service. I facilitated the accomplishment of an increase of sales by 20% by supporting the General Manager. I am also known for my skills in project coordination and have excellent communication skills.

I am confident that I would be an excellent match for your team. I've attached my resume for reference and look forward to hearing from you soon. Thank you for your time and consideration.

Sincerely,

Michael Williams

Musicking TikTok Juan Bermúdez, 2024-12-12 This ethnographic work about TikTok's musicking in a glocal Austrian context complements and builds upon ethnomusicological assumptions, theories, and methods for the study of musical practices in digital spaces. An overview of elements that make up TikTok's interface as well as the technical performative possibilities that it allows, this book introduces a general categorization of existing performance types and how TikTokers appropriate the platform to make their music. It illustrates how some TikTokers became aware of and began using TikTok and it reviews some of the different strategies TikTokers apply to learn how to use the application and successfully develop their performances. Bermúdez explores how performers move from being ordinary users to becoming TikTokers, developing and performing an identity he calls TikTok Persona. Moreover, he discusses how some TikTok practices can and have occurred across multiple interconnected platforms and he examines how localities are articulated and negotiated in these contexts. Bermúdez argues for an understanding of musicking as a multimedia practice that different actors create and experience individually in everyday synchronous and asynchronous physical and digital situations. The so-called TikTokers create a sense of identity and community through their performances. This study suggests that a digital performance can be, aside from a representation of reality, an integral part of it, serving as a fundamental space for constructing and performing identity.
