Raw Deal Steven Hill, 2015-10-20 What s going to happen to my job That s what an increasing number of anxious Americans are asking themselves The US workforce which has been one of the most productive and wealthiest in the world is undergoing an alarming transformation Increasing numbers of workers find themselves on shaky ground turned into freelancers temps and contractors Even many full time and professional jobs are experiencing this precarious shift Within a decade a near majority of the 145 million employed Americans will be impacted Add to that the steamroller of automation robots and artificial intelligence already replacing millions of workers and projected to obsolesce millions more and the jobs picture starts looking grim Now a weird yet historic mash up of Silicon Valley technology and Wall Street greed is thrusting upon us the latest economic fraud the so called sharing economy with companies like Uber Airbnb and TaskRabbit allegedly liberating workers to become independent and their own CEOs hiring themselves out for ever smaller jobs and wages while the companies profit But this share the crumbs economy is just the tip of a looming iceberg that the middle class is drifting toward Raw Deal How the Uber Economy and Runaway Capitalism Are Screwing American Workers by veteran journalist Steven Hill is an expos that challenges conventional thinking and the hype celebrating this new economy by showing why the vision of the techno sapien leaders and their Ayn Rand libertarianism is a dead end In Raw Deal Steven Hill proposes pragmatic policy solutions to transform the US economy and its safety net and social contract launching a new kind of deal to restore power back into the hands of American workers

Sugar Daddy Capitalism Peter

Fleming,2018-11-26 What is the connection between the sleaziness of Harvey Weinstein s business meetings and the passionless doctrine of neoclassical economics In this witty and incisive examination of the new economy Peter Fleming argues that they are closer than you might think The quest to rid society of bureaucracy shrink government and burn red tape has certainly made capitalism more human but not in the family friendly way envisaged by free market gurus Increasing informality has led to a capitalism fuelled by limitless exploitation and increasingly seedy methods of management from semi feudal workplace hazing rituals and predatory middle managers with an axe to grind to arbitrary zero hours contracts Uber and perhaps worst of all the compulsory gym session with your boss Fleming dubs this Sugar Daddy Capitalism after the controversial dating app wealthy businessmen use to meet young girls most of whom are struggling with university fees What seems like a creepy outlier is actually a prescient metaphor for our whole economy an anonymous and impersonal cash system that is also intent on getting under your skin extra close and capable of ruining everything if you say no **Secrets**
