Cheap Ellen Ruppel Shell, 2009-07-02 A myth shattering investigation of the true cost of America's passion for finding a better bargain From the shuttered factories of the Rust Belt to the strip malls of the Sun Belt and almost everywhere in between America has been transformed by its relentless fixation on low price This pervasive yet little examined obsession with bargains is arguably the most powerful and devastating market force of our time having fueled an excess of consumerism that blights our landscapes escalates personal debt lowers our standard of living and even skews of our concept of time Spotlighting the peculiar forces that drove Americans away from quality durability and craftsmanship and towards quantity quantity and more quantity Ellen Ruppel Shell traces the rise of the bargain through our current big box profusion to expose the astronomically high cost of cheap *The Owner-Builder Book: Construction Bargain Strategies* ,

The Private Equity Edge: How Private Equity Players and the World's Top Companies Build Value and Wealth

Arthur B. Laffer, William J. Hass, Shepherd G. Pryor, 2008-07-01 The world is changing and has never been more challenging to private equity players public companies and investors With record market volatility and a global economic crisis decision makers of all types can learn from successful private equity players and other top value builders Private equity is growing at a rapid rate with 2.7 trillion in transactions since 2001 and buyouts occurring in every type of market including declining ones And now with the end of investment banks as we know them the door is open to more opportunities than ever In *The Private Equity Edge* economics giant Arthur B Laffer along with value building experts William J Hass and Shepherd G Pryor IV combines the concepts of intrinsic value macroeconomics and incentives into a single strategy used by today's top value builders You'll learn how to create value while reducing risk by Thoroughly exploring relevant data to quantify ranges of value and risk Anticipating reactions of those whom you seek to influence Exploring possibilities and options before making major decisions Employing incentive systems that work in both up and down markets Examples of major private equity players at Blackstone KKR Carlyle Cerberus and Madison Dearborne Partners illustrate what to do and what to avoid in specific situations Decision makers seeking to take full advantage of the new interconnected world of business and economics will learn how to make the best decision the first time around quickly and with conviction the key to seizing the private equity edge **Scribner's Magazine** Edward Livermore Burlingame, Robert Bridges, Alfred Sheppard

Hoovers Inc, 2006-12 **Big-Box Swindle** Stacy Mitchell, 2007-10-01 A Book Sense Pick and Annual Highlight With a New Afterword In less than two decades large retail chains have become the most powerful corporations in America In this deft and revealing book Stacy Mitchell illustrates how mega retailers are fueling many of our most pressing problems from the

shrinking middle class to rising pollution and diminished civic engagement and she shows how a growing number of communities and independent businesses are effectively fighting back Mitchell traces the dramatic growth of mega retailers from big boxes like Wal Mart Home Depot Costco and Staples to chains like Starbucks Olive Garden Blockbuster and Old Navy and the precipitous decline of independent businesses Drawing on examples from virtually every state in the country she unearths the extraordinary impact of these companies and the big box mentality on everything from soaring gasoline consumption to rising poverty rates failing family farms and declining voting levels Along the way Mitchell exposes the shocking role government policy has played in the expansion of mega retailers and builds a compelling case that communities composed of many small locally owned businesses are healthier and more prosperous than those dominated by a few large chains More than a critique Big Box Swindle provides an invigorating account of how some communities have successfully countered the spread of big boxes and rebuilt their local economies Since 2000 more than two hundred big box development projects have been halted by groups of ordinary citizens and scores of towns and cities have adopted laws that favor small scale local business development and limit the proliferation of chains From cutting edge land use policies to innovative cooperative small business initiatives Mitchell offers communities concrete strategies that can stave off mega retailers and create a more prosperous and sustainable future
