## **Population Control In China Theory And Applications:**

Population Control in China Jian Song, Chi-Hsien Tuan, Jingyuan Yu, 1985      *Mr. Science and Chairman Mao's Cultural Revolution* Darryl E. Brock, Chunjuan Nancy Wei, 2012-12-14 China is emerging as a new superpower in science and technology reflected in the success of its spacecraft and high velocity Maglev trains While many seek to understand the rise of China as a technologically based power the Cultural Revolution of the 1960s may seem an unlikely era to explore for these insights Despite the widespread verdict of the Great Proletarian Cultural Revolution as an unmitigated disaster for China a number of recent scholars have called for re examining Maoist science both in China and in the West At one time Western observers found much to admire in Chairman Mao's mass science his egalitarian effort to take science out of the ivory tower and place it in the hands of the disenfranchised peasant the loyal worker and the patriot soldier Chunjuan Nancy Wei and Darryl E Brock have assembled a rich mix of talents and topics related to the fortunes and misfortunes of science technology and medicine in modern China while tracing its roots to China's other great student revolution the May Fourth Movement Historians of science political scientists mathematicians and others analyze how Maoist science served modern China in nationalism socialism and nation building and also where it failed the nation and the Chinese people If the Cultural Revolution contributed to China's emerging space program and catalyzed modern malaria treatments based on Traditional Chinese Medicine it also provided the origins of a science talent gap and the milieu from which a one child policy would arise Given the fundamental importance of China today and of East Asia generally it is imperative to have a better understanding of its most recent scientific history but especially that history in a period of crisis and how that crisis was resolved What is at issue here is not only the specific domain of the history of science but the social and scientific policies of China generally as they developed and were applied prior to during and after the Cultural Revolution      *Paideuma*, 2007 Mitteilungen zur Kulturkunde      Perspektiven der empirischen Alter(n)ssoziologie Andreas Motel-Klingebiel, 2002-01-31 Eine alternde Gesellschaft wird die Bedingungen des menschlichen Zusammenlebens grundlegend ändern und stellt die Alterssozialpolitik und die empirische Sozialforschung vor neue Herausforderungen Bereits die in den vergangenen Jahrzehnten stattgefundenen Ausbildung einer eigenständigen Lebensphase des höheren Lebensalters hat entscheidende Impulse für die Alterspolitik und -forschung gegeben Alter hat hohe Konjunktur und gilt als Zukunftsthema schlechthin Mit dieser wachsenden gesellschaftlichen Bedeutung des höheren Lebensalters geht eine Flut von empirischen Forschungsarbeiten einher Davon ist natürlich auch und gerade die Alterssoziologie betroffen Doch die Forschungsmethoden der allgemeinen empirischen Sozialforschung lassen sich nur bedingt und unter Berücksichtigung der Spezifika des Gegenstandes auf die empirische Altersforschung übertragen Der Band versucht daher Perspektiven der empirischen Alterssoziologie aufzuzeigen Dabei werden quantitative und qualitative Ansätze gleichermaßen berücksichtigt und deren Integrationsmöglichkeiten für das Feld der Soziologie des Alters ausgelotet      **Theory of population control and its applications to China** Jian Song, Chi-Hsien
