Ethics in an Age of Technology Ian G. Barbour, 2013-01-29 What are the conflicting ethics and assumptions that lead to divergent views and technology To help shed light on this question Ian Barbour analyzes three social values justice participatory freedom and economic development He defends such environmental principles as resource sustainability environmental protection and respect for all forms of life and presents case studies in agriculture energy policy genetic engineering and the use of computers Finally he concludes by focusing on appropriate technologies individual life styles and sources of change education political action response to crisis and alternative visions of the good life **Ghana National Bibliography Bi Monthly** ,2000 **Miracles, Mysteries, and Prayer** Philip S. Berg, 1993 Why do our prayers seem to go unanswered Do miracles really exist Can we ever know all the mysteries of our universe In *Miracles Mysteries and Prayer* Rav Berg takes us on a compelling journey where we discover many insightful secrets revealing a mysterious connection between the universe out there and the universe within ourselves The life enriching concepts of Kabbalah provide a clear light onto the profound answers and solutions that we personally seek We begin to realize that prayer can solve many of our own mysteries and create a miracle or two in our own lives as well The ancient Kabbalists provided us with a technology for activating the power of prayer For the first time in 2000 years this ancient technology is being made available to the layperson This is volume two of a two volume set **The Best Interface Is No Interface** Golden Krishna, 2015-01-31 Our love affair with the digital interface is out of control We've embraced it in the boardroom the bedroom and the bathroom Screens have taken over our lives Most people spend over eight hours a day staring at a screen and some technological innovators are hoping to grab even more of your eyeball time You have screens in your pocket in your car on your appliances and maybe even on your face Average smartphone users check their phones 150 times a day responding to the addictive buzz of Facebook or emails or Twitter Are you sick There's an app for that Need to pray There's an app for that Dead Well there's an app for that too And most apps are intentionally addictive distractions that end up taking our attention away from things like family friends sleep and oncoming traffic There's a better way In this book innovator Golden Krishna challenges our world of nagging screen based bondage and shows how we can build a technologically advanced world without digital interfaces In his insightful raw and often hilarious criticism Golden reveals fascinating ways to think beyond screens using three principles that lead to more meaningful innovation Whether you're working in technology or just wary of a gadget filled future you'll be enlightened and entertained while discovering that the best interface is no interface **Weekly World News** ,1999-09-28 Rooted in the creative success of over 30 years of supermarket tabloid publishing the *Weekly World News* has been the world's only reliable news source since 1979 The online hub www.weeklyworldnews.com is a leading entertainment news site The Free-energy Device Handbook David Hatcher Childress, 1994 A large format compilation of various patents papers descriptions and diagrams concerning free energy devices and systems The *Free Energy Device Handbook* is a visual
