Directory of Industry Data Sources: Western Europe, 1982 *Multinational business finance* David K. Eiteman, Arthur I. Stonehill, Michael H. Moffett, 1995 The Ninth Edition of this market leader communicates the complexities of international finance clearly and authoritatively The book features a streamlined presentation expanded attention to emerging markets several new chapters and four new decision cases with an emerging markets focus An accompanying new Casebook by Michael Moffett includes in depth decision cases keyed to the coverage in the Eiteman text The authors have a knack for communicating the complexities of international finance to today's students in a manner that is clear and understandable For anyone interested in business *Cities in the World-System* Resat Kasaba, 1991-10-30 The contributors to this collection question the boundaries and limitations that are imposed on the study of cities by urban sociology They do not disagree that during most of their history the regions and peoples of the world have been organized hierarchically and that there are differences that need to be explained But they see the processes and relations that link regions and people together as the main factor that explains these differences It is the differentiation and not the differences per se that constitute this volume's focus and in its respective accounts taking care not to privilege any one region or time period on the basis of its presumed special characteristics Against this background the book is divided into three parts Part one deals with places outside of western Europe and with times that preceded the establishment of the European based capitalist world economy The articles in part two discuss the different aspects of the concept of hegemony and the establishment of domination as these apply to cities in the world system In part three the focus shifts back to extra European zones where the patterns of transformation around cities under the aegis of capitalist world economy are examined This book constitutes an important addition to the literature on cities By approaching cities from a large scale and a long term perspective the contributors develop a historical explanation of some of the different patterns of development that affected particular cities in their interaction with the world economy This historical and holistic perspective represents an improvement over most of urban sociology where cities or aspects of cities are studied in isolation from all contingent and contextual factors This book can be used by scholars graduate and upper division undergraduate students of urban history and sociology **Zum System und zur Dynamik hochrangiger Zentren im nationalen und internationalen Massstab**, 1989 *Cities in a Global Society* Richard Victor Knight, Gary Gappert, 1989-08 *Cities in a Global Society* is an impressive collection of essays focused on an important global redefinition Go Global is a rapidly emerging theme of the 1990s and this book is the definitive overview of cities that are

doing so Michael Marien Editor Future Survey This is one of the most significant public policy books to appear In essay after essay this important volume makes clear a simple idea That the culture environment and economy of cities are increasingly influenced by forces well beyond the end of Main Street Bulletin of Municipal Foreign Policy As the year 2000 approaches urbanized areas are entering a new era one in which they will be shaped primarily by their responses to powerful global forces The editors and contributors to this fascinating and timely volume believe that cities must begin to assess their roles in a global society and establish their strategic position and comparative advantage in the global marketplace A wide range of essays by noted international scholars shows how national urban policies tend to be reactive driven by problems rather than by opportunities consequently reinforcing the passive nature of cities and their dependency on national initiatives The diversity of their perspectives analyses observations and insights helps to identify and define critical issues that cities are beginning to address as they become more internationally oriented After first examining the role of cities in society the contributors present several perspectives on a city futures management model and review strategies for developing global cities This stimulating volume offers a wide range of innovative responses to these new challenges and will be useful to professionals and students in urban studies economics development studies anthropology international relations future studies political science political theory and sociology
