Preaching in medieval england : an introduction to sermon manuscripts of the period G. R. Owst,1965

Preaching in Medieval England, an Introduction to Sermon Manuscripts of the Period C. 1350-1450, by G.R. Owst ... G. R. Owst,1926 *Preaching During the English Reformation* Susan Wabuda,2002-11-21 This is a study of the religious culture of sixteenth century England centred around preaching and is concerned with competing forms of evangelism between humanists of the Roman Catholic Church and emerging forms of Protestantism More than any other authority Erasmus refashioned the ideal of the preacher Protestant reformers adopted preaching Christ as their strategy to promote the doctrine of justification by faith The apostolic traditions of the preaching chantries provided standards that evangelical reformers used to supplant the mendicant friars in England The late medieval cult of the Holy Name of Jesus is explored the pervasive iconography of its symbol IHS became one of the attributes of moderate Protestant belief The book also offers fresh perspectives on fifteenth and sixteenth century figures on every side of the doctrinal divide including John Rotherham John Colet Hugh Latimer and Anne Boleyn A History of Preaching Volume 1 Rev. O.C. Edwards JR.,2016-04-25 A History of Preaching brings together narrative history and primary sources to provide the most comprehensive guide available to the story of the church s ministry of proclamation Bringing together an impressive array of familiar and lesser known figures Edwards paints a detailed compelling picture of what it has meant to preach the gospel Pastors scholars and students of homiletics will find here many opportunities to enrich their understanding and practice of preaching Volume 1 contains Edwards s magisterial retelling of the story of Christian preaching s development from its Hellenistic and Jewish roots in the New Testament through the late twentieth century s discontent with outdated forms and emphasis on new modes of preaching such as narrative Along the way the author introduces us to the complexities and contributions of preachers both with whom we are already acquainted and to whom we will be introduced here for the first time Origen Chrysostom Augustine Bernard Aquinas Luther Calvin Wesley Edwards Rauschenbusch Barth all of their distinctive contributions receive careful attention Yet lesser known figures and developments also appear from the ninth century reform of preaching championed by Hrabanus Maurus to the reference books developed in the thirteenth and fourteenth centuries by the mendicant orders to assist their members preaching to Howell Harris and Daniel Rowlands preachers of the eighteenth century Welsh revival to Helen Kenyon speaking as a layperson at the 1950 Yale Beecher lectures about the view of preaching from the pew Volume 2 available separately as 9781501833786 contains primary source material on preaching drawn from the entire scope of the church s twenty centuries The author has written an introduction to each selection placing it in its historical context and pointing to its particular contribution Each chapter in Volume 2 is geared to its companion chapter in Volume 1 s narrative history Ecumenical in scope fair minded in presentation appreciative of the

contributions that all the branches of the church have made to the story of what it means to develop deliver and listen to a sermon A History of Preaching will be the definitive resource for anyone who wishes to preach or to understand preaching's role in living out the gospel This work is expected to be the standard text on preaching for the next 30 years says Ann K Riggs who staffs the NCC's Faith and Order Commission Author Edwards former professor of preaching at Seabury Western Theological Seminary is co-moderator of the commission which studies church uniting and church dividing issues A History of Preaching is ecumenical in scope and will be relevant in all our churches we all participate in this field says Riggs from EcuLink Number 65 Winter 2004 2005 published by the National Council of Churches

Preaching and Narrative in Piers Plowman Alastair Bennett, 2023-10-04 William Langland's Piers Plowman was written and read during a golden age of English preaching The poem describes a world where sermons took many different forms and were delivered in many different contexts from public events in the life of the realm to pastoral instruction in the parish It dramatises preaching as part of its allegorical action showing how sermons shaped their listeners' understanding of the world it also includes polemical critique of corrupt self-interested preaching and offers radical prescriptions for its reform This book argues that Langland's central insight into the way that sermons moved and engaged their audiences had to do with their characteristic use of narrative Preachers in the poem address listeners who are absorbed in the concerns of their present moment and encourage them to new forms of social and spiritual endeavour by locating that moment in a larger interpreted plot the story of an individual life or an emergent community or of salvation history as a whole The book employs a critical vocabulary derived from Paul Ricoeur to describe the process by which these narratives are composed and to show how they mediate and reconfigure their listeners' experiences

The Seven Deadly Sins Richard Newhauser, 2007 These essays examine the seven deadly sins as cultural constructions in the Middle Ages and beyond focusing on the way concepts of the sins are used in medieval communities the institution of the

Church and by secular artists and authors *Late Medieval Popular Preaching in Britain and Ireland* Alan John Fletcher, 2009 Sermons and preaching played a key role in forming the religious mentality of many late medieval men and women Yet the practice of preaching depended on many variables the nature and disposition of the audience the competence of the preacher and even the stylistic variations that different Orders developed to distinguish their preachers from others This study and anthology of late medieval popular preaching intended for the laity explores this diversity by presenting examples of sermons from each of the major wings of the late medieval orthodox Church the friars the regulars the canons regular the secular canons and the seculars It also reveals the ways in which this diversity in forms of preaching finds it correlate in the codicological diversity that existed between sermon manuscripts themselves Late Medieval Popular Preaching in Britain and Ireland demonstrates how formidable and culturally constitutive a force preaching was and also examines some of the ways in which it impinged on the production of vernacular literature ultimately revealing the powerful and wide spread influence of sermon discourse on cultural production in greater British society Book Jacket **A Study and Edition of Selected Middle English Sermons** Veronica M.
