**Problems and Perspectives** Wendy Ayres-Bennett,Janice Carruthers,Rosalind Temple,2014-02-25 Problems and Perspectives Studies in the Modern French Language looks at a number of interesting or problematic areas in the phonology morphology syntax and lexis of the French language and encourages the reader to think critically about different ways of approaching describing and explaining these issues or data The book is divided into two parts the first section is a preliminary to and contextualises the discussion of the more specialised topics of the second part Part two presents problematic and controversial areas in the description and analysis of the contemporary language Where appropriate historical and sociolinguistic issues are also integrated into the discussion of modern French Aimed primarily at advanced students and researchers in French linguistics the introductory sections of part one also make this book accessible to undergraduates beginning their study of French linguistics and to less specialised readers      *International library of general linguistics* ,1974      **Expressing the Same by the Different** Igor Dreer,2007 This volume offers an alternative sign oriented analysis of the distribution of the French Indicative and Subjunctive It rejects both government and functions attributed to both moods and shows that the distribution of the Indicative and the Subjunctive is motivated by their invariant meanings The volume illustrates the close interaction between the Indicative and the Subjunctive as linguistic signs and signs of other grammatical systems contextually associated with the invariant meanings of both moods Special consideration is given to the use of the Indicative and the Subjunctive in texts of different styles and genres This volume also deals with the diachronic disfavoring of the Subjunctive and especially of the Imperfect Subjunctive that occurred from Old French to

Contemporary French It is argued that this disfavoring was motivated by the narrowing of the invariant meaning of the Contemporary French Subjunctive All hypotheses are supported by contextualized examples and frequency counts
