Precolumbian Population History In The Maya Lowlands:

Precolumbian Population History in the Maya Lowlands T. Patrick Culbert, Don Stephen Rice, 1990 The Ancient Maya Heather McKillop, 2004-08-19 Thanks to powerful innovations in archaeology and other types of historical research we now have a picture of everyday life in the Mayan empire that turns the long accepted conventional wisdom on its head Ranging from the end of the Ice Age to the flourishing of Mayan culture in the first millennium to the Spanish conquest in the 16th century The Ancient Maya takes a fresh look at a culture that has long held the public's imagination Originally thought to be peaceful and spiritual the Mayans are now also known to have been worldly bureaucratic and violent Debates and unanswered questions linger Mayan expert Heather McKillop shows our current understanding of the Maya explaining how interpretations of dirt archaeology hieroglyphic inscriptions and pictorial pottery are used to reconstruct the lives of royalty artisans priests and common folk She also describes the innovative focus on the interplay of the people with their environments that has helped further unravel the mystery of the Mayans rise and fall Urbanism in the Preindustrial World Glenn R. Making Ancient Cities Andrew T. Creekmore, III, Kevin D. Fisher, 2014-04-28 This volume investigates how the structure and use of space developed and changed in cities and examines the role of different societal groups in shaping urbanism. Culturally and chronologically diverse case studies provide a basis to examine recent theoretical and methodological shifts in the archaeology of ancient cities. The book's primary goal is to examine how ancient cities were made by the people who lived in them. The authors argue that there is a mutually constituting relationship between urban form and the actions and interactions of a plurality of individuals, groups and institutions each with their own motivations and identities. Space is therefore socially produced as these agents operate in multiple spheres.

The Ancient Maya City of Blue Creek, Belize Thomas H. Guderjan, 2016 This volume summarizes many aspects of more than twenty years of field research at the ancient Maya city of Blue Creek in northwestern Belize. Blue Creek was a medium sized Maya kingdom whose wealth was built upon access to large scale and high quality agricultural lands and its location at the headwaters of the Rio Hondo. The Rio Hondo is the northern most river draining the Maya lowlands into the Caribbean Sea and provided access to markets and polities of northern Yucatan. The studies in the volume provide an overview of Blue Creek combined with detailed studies of aspects of production, trade, distribution and the organization and functional interactions within the community.
