

List of 20 Frequently Asked Thesis Defense Questions

Because you have just heard and read about the thesis, you may be wondering what a thesis defense is. A defense, on the other hand, refers to evidence that serves as support for the work. The magnitude of the work you have undertaken defends the evidence you will be selecting for your task.

The majority of the questions asked by the internal or external examiners in the viva voce hall revolve around these defense questions. Because you are unaware of the presence of something like this, you feel anxious or worried and are unable to provide expected and justifiable responses. Regardless of the subject, examiners will ask some typical defense questions.

In this article, we will discuss 20 such common defense questions you need to prepare for.

1. What is your research study all about?

In your answer, you should summarize your research in a few sentences. The question is simple but requires technical expertise for a better explanation of concepts. For instance, if you completed a thesis in an attempt to explain the constituents of dark matter in the universe and particle accelerators, you could frame your answer like this:

In this research, the different aspects of dark matter and its detection models have been investigated. The cosmic ray positron excess observed by the PAMELA detector has been discussed and explained through the construction of models of decaying dark matter. The cosmic-ray electron and positron spectra were studied assuming a general Dirac structure for the four fermion contact interactions of interest. A supersymmetric leptophilic Higgs model was constructed to explain the possible excess of gamma rays in the galactic center. Finally, by the use of Razor analysis, an improvement on the dark matter collider searches is considered.

2. Why did you choose this study?

This question requires you to answer what motivated you to pursue the study in the first place. Your answers could touch on your interests in the area of the study. For example, if you conducted a study called “Media Combat: The Great War and the Transformation of American Culture” then you can shape your answer like this:
