Nietzsche's Ecce Homo was published posthumously in 1908 eight years after his death and has been variously described ever since as useless mad or merely inscrutable Against this backdrop Nicholas D More provides the first complete and compelling analysis of the work and argues that this so called autobiography is instead a satire This form enables Nietzsche to belittle bad philosophy by comic means attempt reconciliation with his painful past review and unify his disparate works insulate himself with humor from the danger of looking into abysses and establish wisdom as a special kind of good taste After showing how to read this much maligned book More argues that *Ecce Homo* presents the best example of Nietzsche making sense of his own intellectual life and that its unique and complex parody of traditional philosophy makes a powerful case for reading Nietzsche as a philosophical satirist across his corpus

Preface to Plato Eric A. Havelock, 1963 Plato's frontal attack on poetry has always been a problem for sympathetic students who have often minimized or avoided it Beginning with the premise that the attack must be taken seriously Eric Havelock shows that Plato's hostility is explained by the continued domination of the poetic tradition in contemporary Greek thought The reason for the dominance of this tradition was technological In a nonliterate culture stored experience necessary to cultural stability had to be preserved as poetry in order to be memorized Plato attacks poets particularly Homer as the sole source of Greek moral and technical instruction Mr Havelock shows how the Iliad acted as an oral encyclopedia Under the label of mimesis Plato condemns the poetic process of emotional identification and the necessity of presenting content as a series of specific images in a continued narrative The second part of the book discusses the Platonic Forms as an aspect of an increasingly rational culture Literate Greece demanded instead of poetic discourse a vocabulary and a sentence structure both abstract and explicit in which experience could be described normatively and analytically in short a language of ethics and science
