Pregnancy And Childcare Issues In The Workplace:

Pregnancy & Childcare Issues in the Workplace Gerard P. Panaro,1987 The Legal Regulation of Pregnancy and Parenting in the Labour Market Grace James,2008-11-19 This theoretically informed book deconstructs the legal regulation of pregnancy and parenting in the labour market and asks why despite policy ambitions and ample legislation law is failing to protect pregnant workers and parents from detrimental treatment in the labour market **Gower Handbook of Discrimination at Work** Dr Hazel Conley,Ms Tessa Wright,2012-09-28 Workplace discrimination is an experience that despite four decades of equality legislation continues to blight the lives of thousands every year Discrimination persists on the protected grounds of sex race disability age sexual orientation religion or belief and gender reassignment as well as where no legal protection exists such as in relation to class background or migration status The Handbook discusses recent changes in equality legislation as well as considering the limitations of legal frameworks in addressing inequality However complying with the law is only the first step towards addressing discrimination in the workplace and the book goes beyond the law and provides evidence of good practice in promoting organisational culture change as well as considering future directions for policy on equality action The Gower Handbook of Discrimination at Work looks at both social justice and business case perspectives and its message is not a negative one The contributors have considerable depth of understanding of workplace discrimination both as academics and equality practitioners their work has contributed to policy formation and all are committed to improving the lives of people at work They offer insights into existing international developments and make suggestions for the ways in which positive change can be realised Practitioners such as human resources professionals and other managers involved in addressing equality at work trade unionists equality trainers and academics concerned with researching or teaching in the areas of employment and equality will all find this book of interest Furthermore it will be of value to students in the fields of business and management employment law equality and diversity and human resource management *Job Discrimination* United States. Equal Employment Opportunity Commission,1979 *Pregnancy at Work* Regina Kenen,Jenny McLeish,Daphne May,1998 Pregnancy at work provides invaluable information for personnel workers health and safety officers trade union negotiators and other professionals on all issues affecting pregnant women in the workplace Women in Kolkata's IT Sector Zakir Husain,Mousumi Dutta,2013-12-30 Based on a survey of women workers in Kolkata s IT sector this book argues that growth of the IT sector has created a demand for skilled professionals This has provided scope for highly educated urban women to create a space of self expression and enjoy enhanced status and prestige within their families These women workers carefully plan their career and daily activities keeping in mind the need to balance diverse and conflicting needs of work and home This kind of decision making occurs outside the utilitarian framework and is better framed in terms of Herbert Simon s satisficing approach which takes into account the bounded rationality of agents Written in lucid non technical language the book will be an invaluable addition to existing works on

gender and labour studies and will be of interest to social scientists undertaking research on gender labour and the IT sector
