Harcourt, Grace Golden Denny, Carolyn M. Osborne, 2002-01-01 This magnificently illustrated work offers a comprehensive view of the textiles and techniques of pre-Columbian Peru An introduction discusses yarns dyes looms and raw materials the first of the two part text examines weaves and the second considers such nonwoven materials as braiding felt and embroidery **Textile Economies** Walter E. Little, Patricia A. McAnany, 2011-10-16 Textiles have been a highly valued and central part of the politics of human societies across culture divides and over millennia The economy of textiles provides insight into the fabric of social relations local and global politics and diverse ideologies Textiles are a material element of society that fosters the study of continuities and disjunctions in the economic and social realities of past and present societies From stick loom weaving to transnational factories the production of cloth and its transformation into clothing and other woven goods offers a way to study the linkages between economics and politics The volume is oriented around a number of themes textile production textiles as trade goods textiles as symbols textiles in tourism and textiles in the transnational processes *Textile Economies* appeals to a

broad range of scholars interested in the intersection of material culture political economy and globalization such as archaeologists cultural anthropologists economists museum curators and historians
