Daviau, Randall W. Younker**

Prehistoric Archaeology Of Jordan:

The Prehistoric Archaeology of Jordan Donald O. Henry, 1998 Thirteen papers providing a comprehensive review of Jordanian prehistory from the Lower Paleolithic to the Late Neolithic Many come from recently completed research projects prior to their final publication The Lower Paleolithic Corraine Copeland The Middle Paleolithic Donald O Henry The Early and Middle Epipaleolithic Brian F World Prehistory and Archaeology Michael Chazan, 2017-08-22 An Integrated Picture of Prehistory as an Active Process of Discovery World Prehistory and Archaeology Pathways through Time fourth edition provides an integrated discussion of world prehistory and archaeological methods This text emphasizes the relevance of how we know and what we know about our human prehistory A cornerstone of World Prehistory and Archaeology is the discussion of prehistory as an active process of discovery Methodological issues are addressed throughout the text to engage readers Archaeological methods are introduced in the first two chapters Succeeding chapters then address the question of how we know the past to provide an integrated presentation of prehistory The fourth edition involves readers in the current state of archaeological research revealing how archaeologists work and interpret what they find Through the coverage of various new research author Michael Chazan shows how archaeology is truly a global discipline Learning Goals Upon completing this book readers will be able to Gain new perspectives and insights into who we are and how our world came into being Think about humanity from the perspective of archaeology Appreciate the importance of the archaeological record for contemporary society **Crossing Jordan** Thomas Evan Levy, P.M. Michele Daviau, Randall W. Younker, 2016-06-16 Jordan is a key area of migration within the Levantine corridor that links the continents of Africa and Asia Crossing Jordan examines the peoples and cultures that have travelled across Jordan from antiquity to the present The book offers a critical analysis of recent discoveries and archaeological models in Jordan and highlights the significant contribution of North American archaeologists to the field Leading archaeologists explore the theory and methodology of archaeology in Jordan in essays which range across prehistory the Bronze Age the Iron Age the Hellenistic and Roman periods Nabatean civilization the Byzantine period and Islamic civilization The volume provides an up to date guide to the archaeological heritage of Jordan being an important resource for scholars and students of Jordan s history as well as citizens non governmental organizations and tourists *International Handbook of Historical Archaeology* Teresita Majewski, David Gaimster, 2009-06-07 In studying the past archaeologists have focused on the material remains of our ancestors Prehistorians generally have only artifacts to study and rely on the diverse material record for their understanding of past societies and their behavior Those involved in studying historically documented cultures not only have extensive material remains but also contemporary texts images and a range of investigative technologies to enable them to build a broader and more reflexive picture of how past societies communities and individuals operated and behaved Increasingly historical archaeology refers not to a particular period place or a method but rather an approach that interrogates the tensions between artifacts and texts irrespective of context In short

historical archaeology provides direct evidence for how humans have shaped the world we live in today Historical archaeology is a branch of global archaeology that has grown in the last 40 years from its North American base into an increasingly global community of archaeologists each studying their area of the world in a historical context Where historical archaeology started as part of the study of the post Columbian societies of the United States and Canada it has now expanded to interface with the post medieval archaeologies of Europe and the diverse post imperial experiences of Africa Latin America and Australasia The 36 essays in the International Handbook of Historical Archaeology have been specially commissioned from the leading researchers in their fields creating a wide ranging digest of the increasingly global field of historical archaeology The volume is divided into two sections the first reviewing the key themes issues and approaches of historical archaeology today and the second containing a series of case studies charting the development and current state of historical archaeological practice around the world This key reference work captures the energy and diversity of this global discipline today

Historical Archaeology in South Africa Carmel Schrire, 2018-12-13 This volume documents the analysis of excavated historical archaeological collections at the Cape of Good Hope South Africa The corpus provides a rich picture of life and times at this distant outpost of an immense Dutch seaborne empire during the contact period Representing over three decades of excavation conservation and analysis the book examines ceramics glass metal and other categories of artifacts in their archaeological contexts An enclosed CD includes a video reconstruction plus a comprehensive catalog and color illustrations of the artifacts in the corpus The parallels and contrasts this volume reveals will help scholars studying the European expansion period to build a richer comparative picture of colonial material culture
