Chacon, Kristian Kristiansen, 2022-09-15 Trade before Civilization explores the role that long distance exchange played in the establishment and or maintenance of social complexity and its role in the transformation of societies from egalitarian to non egalitarian Bringing together research by an international and methodologically diverse team of scholars it analyses the relationship between long distance trade and the rise of inequality The volume illustrates how elites used exotic prestige goods to enhance and maintain their elevated social positions in society Global in scope it offers case studies of early societies and sites in Europe Asia Oceania North America and Mesoamerica Deploying a range of inter disciplinary and cutting edge theoretical approaches from a cross cultural framework the volume offers new insights and enhances our understanding of socio political evolution It will appeal to archaeologists cultural anthropologists conflict theorists and ethnohistorians as well as economists seeking to understand the nexus between imported luxury items and cultural evolution     **The Wetland Revolution in Prehistory** Prehistoric Society (London, England), 1992 Pfahlbauten Moorsiedlung     The Florida Anthropologist , 1987 Contains papers of the Annual Conference on Historic Site Archeology     *Hunters and Gatherers (Vol I)* Tim Ingold, David Riches, James Woodburn, 2024-11-01 All that is central to the dynamic process in human society is evident in the study of hunter gatherers peoples whose subsistence way of life reflects the original form of human adaptation This is the thesis of these wide ranging volumes in which internationally leading scholars consider hunter gatherer peoples in Africa Asia Australia and North America and reflect theoretically on the hunter gatherer condition Volume 1 Hunters and Gatherers History Evolution and Social Change Volume II Hunters and Gatherers Property Power and Ideology     *Integrating Zooarchaeology and Paleoethnobotany* Amber VanDerwarker, Tanya M. Peres, 2010-01-22 In recent years scholars have emphasized the need for more holistic subsistence analyses and collaborative publications towards this endeavor have become more numerous in the literature However there are relatively few attempts to qualitatively integrate zooarchaeological animal and paleoethnobotanical plant data and even fewer attempts to quantitatively integrate these two types of subsistence evidence Given the vastly different methods used in recovering and quantifying these data not to mention their different preservational histories it is no wonder that so few have undertaken this problem Integrating Zooarchaeology and Paleoethnobotany takes the lead in tackling this important issue by addressing the methodological limitations of data integration proposing new methods and innovative ways of using established methods and highlighting case studies that successfully employ these methods to shed new light on ancient foodways The volume

challenges the perception that plant and animal foodways are distinct and contends that the separation of the analysis of archaeological plant and animal remains sets up a false dichotomy between these portions of the diet In advocating qualitative and quantitative data integration the volume establishes a clear set of methods for 1 determining the suitability of data integration in any particular case and 2 carrying out an integrated qualitative or quantitative approach     *The American South* Jessica S.
