Prejudice Politics The American Dilemma:

Prejudice, Politics, and the American Dilemma Paul M. Sniderman, Philip E. Tetlock, 1993 It has been half a century since the publication of *An American Dilemma* Gunnar Myrdal's seminal work on race in America The cleavage between the politics of race of the 1940s and the 1990s is that race has become a greater dilemma than ever before This book is an attempt to contribute to a fresh understanding of prejudice politics and the American dilemma It presents new lines of questions by deliberately interweaving two perspectives the first taking up issues of race focusing on whites the second on blacks The contributors are drawn from several disciplines in the social sciences sociologists psychometricians social and personality psychologists demographers and political scientists of several persuasions The book represents an important shift in perspectives both theoretical and methodological in the study of race and American politics **Kollaps oder Evolution?**

Rebecca Costa, 2012-01-04 Wieso scheint es als könnten die Probleme die unsere Gesellschaft heutzutage bewegen die globale Wirtschaftskrise Wassermangel Klimakatastrophen Hunger und Armut nicht gelöst werden Was wenn unsere Gehirne einfach nicht dafür gemacht sind solche komplexen Sachverhalte zu verstehen und die daraus entstehenden Probleme zu lösen Was wenn Zivilisationen wie die Maya und Rom letztlich untergegangen sind weil auch sie an den Rand ihrer kognitiven Leistungsfähigkeit gestoßen sind und wenn dem so ist wie können wir mit den Beschränkungen unserer eigenen Fähigkeiten so umgehen dass wir einen Zusammenbruch unserer Zivilisation verhindern können Rebecca Costa stellt sich allen wichtigen gesellschaftlich politisch und wirtschaftlich brandaktuellen Fragen aus evolutionärer Sicht und mithilfe wissenschaftlicher Erkenntnisse der Neurobiologie Sie stellt die These auf dass die Komplexität der gegenwärtigen Probleme die Aufnahmefähigkeit des durchschnittlichen menschlichen Gehirns bereits überstiegen hat Der Versuch die Schwierigkeiten immer erst wenn es bereits zu spät ist in den Griff zu bekommen geht verstoßt zu Ungunsten der Nachhaltigkeit und damit schließlich auf unser aller Kosten Deshalb sollten wir uns endlich intensiv mit den Begrenzungen unseres Denkens auseinandersetzen Zur Untermauerung dieser These hat Rebecca Costa nicht nur bereits untergegangene Zivilisationen untersucht sondern in der Tradition des Evolutionsexperten und Begründers der Memetik Richard Dawkins die fünf vorherrschenden kognitiven Hindernisse die sogenannten Supermeme betrachtet die wir überwinden müssen um unsere geistigen Grenzen zu besiegen Im Einzelnen sind es eingefahrene Denkprozesse irrationaler Widerstand persönliche Schuldzuweisungen falsche Interpretation von Korrelationen Silodenken und die Ausweitung eines extremen Konsumgedankens auf alle Lebensbereiche Zur Überwindung dieser Hindernisse sowie der gesellschaftlichen Probleme kann jeder Einzelne beitragen Der erste und entscheidende Schritt im eigens dafür entwickelten Awareness and Action Ansatz ist die Reflexion der angesprochenen Einschränkungen um darauf aufbauend eine Verbesserung unserer Brain Fitness zu erreichen und durch den gezielten Einsatz von Einsicht und Intuition einen Paradigmenwechsel in der Gesellschaft herbeizuführen *Racialized Politics* David O. Sears, Jim Sidanius, Lawrence Bobo, 2000-02-15 Explores the late 1990s debate surrounding the sources of racism in

America The essays represent three major approaches the social psychological the social structural and the non racially inspired ideology It assesses the issues on the role of racism in mass politics and public opinion **Stigma and Sexual Orientation** Gregory M. Herek,1998 This timely and accessible contribution towards a deeper understanding of homophobia provides much needed insight into the issue of prejudice in general Topics discussed include the nature of antigay prejudice stereotypes and behaviors the consequences of homophobia and related phenomena on the well being of lesbians gay men and bisexuals and the critical need for psychology and science to examine homophobia and related issues **Legacies of the 1964 Civil Rights Act** Bernard Grofman,2000 Contributors Paul Burstein University of WashingtonDavid B Filvaroff State University of New York BuffaloLouis Ricardo Fraga Stanford UniversityHugh Davis Graham Vanderbilt UniversityJack Greenberg Columbia UniversityGloria J Hampton Ohio State UniversityJoseph B Kadane Carnegie Mellon UniversityRandall Kennedy Harvard Law SchoolJ Morgan Kousser California Institute of TechnologyRichard Lempert University of MichiganPaula D McCain University of VirginiaCaroline Mitchell Esq Pittsburgh PennsylvaniaGary Orfield Harvard UniversityJorge Ruiz de Velasco Stanford UniversityBarbara Phillips Sullivan Ford FoundationKatherine Tate University of California IrvineStephen L Wasby State University of New York AlbanyRobin M Williams Jr Cornell UniversityRaymond E Wolfinger University of California Berkeley ***Transforming Multicultural Education Policy and Practice*** James A. McDermott,1999 Most Americans believe that local school districts are the only means by which citizens may exercise control over public education Kathryn McDermott argues to the contrary that existing local institutions are no longer sufficient for achieving either equity or democratic governance Not only is local control inequitable it also fails to live up to its reputation for guaranteeing public participation and citizen influence Drawing upon democratic theory and the results of field research in New Haven Connecticut and three suburbs McDermott contends that our educational system can be made more democratic by centralizing control over funding while decentralizing most authority over schools to the level of schools themselves while enacting public school choice controlled for racial balance To many people in Connecticut and elsewhere the tension between equal opportunity for all students and local control of public education seems impossible to resolve In 1996 the Connecticut Supreme Court ruled in *Sheff v O'Neill* that local control produces unconstitutional segregation of public schools Nearly all of the state's 169 towns operate their own public schools and like the towns they serve the schools are generally homogeneous with respect to race and socioeconomic class In the *Sheff* ruling the court declared that making school districts coterminous with town lines is the single most important factor contributing to the present concentration of racial and ethnic minorities in the Hartford public school system At the same time the court also acknowledged that the town based school system presently furthers the legitimate nonracial interests of permitting considerable local control and accountability in educational matters In Connecticut and elsewhere it has often seemed necessary to choose between local control and equity in public education and local control has almost always won McDermott argues that rather than seeing local control and equity as conflicting goals policymakers should regard them as equally important components of democracy in public education In her view a truly democratic system of education should both encourage citizen participation in school governance and contribute to the formation and maintenance of a social order in which equality of opportunity prevails over hierarchies of privilege Centralizing distribution of resources and using controlled choice to end racial isolation would provide greater equality of opportunity while decentralizing management of schools would expand citizen participation McDermott's conclusions break new ground in our understanding of local school governance itself and call into question the conventional wisdom about local participation These findings should interest those who study school governance and reform especially in an urban setting as well as policy makers administrators teachers students and citizens eager to improve their schools *Brown V. Board of Education* Robert J. Cottrol,Raymond T. Diamond,Leland Ware,2003 Tracing the litigations highlighting the pivotal role of the NAACP and including incisive portraits of key players this book simply but powerfully shows that *Brown* not only changed the

national equation of race and caste it also changed our view of the Court's role in American life *White Racial Attitudes* Maria Krysan, 1995 **The Psychology of Modern Prejudice** Melanie A. Morrison, Todd G. Morrison, 2008 Modern prejudice refers to the subtle negative attitudes that are directed toward stigmatised groups such as African Americans and gay men and lesbian women Individuals categorised as high in modern prejudice deny the existence of discrimination against stigmatised groups believe that demands made by these groups are unfair assert that social institutions accord disproportionate attention to such groups and reject their efforts to change the status quo Stated simply the ethos of an individual high in modern prejudice is Discrimination is a thing of the past because groups now have all the rights they need social scientists have devoted considerable attention to studying modern prejudice however no book has provided comprehensive coverage of this topic until now It also offers students and academics as well as the interested layperson a thorough review of modern prejudice a construct that is at the centre of some of the most innovative studies currently conducted by psychologists *The Declining Significance of Rights* Luis Ricardo Fraga, Jorge Ruiz-de-Velasco, 1995
