Second Language Learning Betty Wallace Robinett, Jacquelyn Schachter, 1983 *Kontrastivität und kontrastives Lernen* Claus Gnutzmann, 1995 Second Language Acquisition and Linguistic Variation Robert Bayley, Dennis Richard Preston, 1996-01-01 This volume corrects the relative neglect in Second Language Acquisition studies of the quantitative study of language variation and provides insights into such issues as language transfer acquisition through exposure language universals learner's age and so forth These studies bolster the idea that a full account of SLA development and hence a theory of SLA must be built on not only detailed accounts of interlanguage data but also on a wide appeal to factors which govern the psycholinguistic bases of SLA An important addition to the volume is a comprehensive guide to both the DOS and Macintosh versions of the VARBRUL statistical program used by variationists **The Routledge Handbook of Korean as a Second Language** Andrew Sangpil Byon, Danielle Ooyoung Pyun, 2022-04-19 The Routledge Handbook of Korean as a Second Language aims to define the field and to present the latest research in Korean as a second language KSL It comprises a detailed overview of the field of KSL teaching and learning discusses its development and captures critical cutting edge research within its major subfields As the first handbook of KSL published in English this book will be of particular interest to advanced undergraduates graduate students language teachers curriculum developers and researchers in the fields of KSL and applied linguistics While each chapter will be authored by internationally renowned scholars in its major subfields the handbook aims to maintain accessibility so that it can also be of value to non specialists *Second Language Acquisition* Susan M. Gass, Larry Selinker, 2008-01-31 A clear and accessible introductory textbook on second language acquisition research focusing on methodological issues L1 influence theories of second language research interlanguage issues L2 input nonlinguistic factors affecting L2 acquisition instructed SLA and the role of the lexicon It is intended for UG or G students who have little or no background in SLA research but do have a basic grounding in general linguistics Each chapter has exercises and a list of references *Contrastive Analysis for the Contemporary Second Language Classroom* Marcel Danesi, Robert J. approach in respect of their treatment of avoidance behaviour It considers several researches on avoidance behaviour and shows that contrastive analysis predicts the avoidance phenomenon in most cases and therefore gives a complete description of the areas of difficulty for learners of a second language There exist two different approaches for the identification of possible learning problems in the second language acquisition contrastive analysis and error analysis A number of proponents of an error analysis approach claim that contrastive analysis cannot serve as an adequate tool for identifying the areas of difficulty for learners of a second language But on the other hand it has been noticed that error analysis is not able to explain the avoidance phenomenon since error analysis registers only the errors done by learners of a second language Avoidance behaviour represents a communicative strategy of a learner of a second language by which the learner prefers using a simpler form instead of the target linguistic element for the reason of difficulty on the part of the target feature Consequently avoidance behaviour serves as a manifestation of learning problems and its results should be definitely considered when compiling language syllabi and tests
