Second Messiah Templars The Turin Shroud And The Great Secret Of Free Masonry:

The Second Messiah Christopher Knight,2000 **The Second Messiah** Christopher Knight,Robert Lomas,2001-08-01

For almost seven and a half centuries a piece of cloth was venerated because it bore the image of the crucified Christ. However but results of carbon dating have shown that the fabric could not have predated 1260. Now new evidence conclusively proves that it is not a face yet neither is it the image of Jesus Christ. In the follow up to their groundbreaking first book *The Hiram Key* Christopher Knight and Robert Lomas continue their research into the mysteries of Freemasonry and the true historical Jesus and uncover the precise time and place of the shroud's creation. The answer to the great mystery of the Shroud of Turin will surprise and astonish as the authors unlock the secrets of abandoned Freemason rituals and the man who would be called the Second Messiah.

Sacred Sites of the Knights Templar (Nipb) , All across the continent of Europe massive stone monuments erected by a prehistoric culture can be found. These megalithic stones resisting centuries of weathering or assaults by modern men are all that remain of a society that has been erased by time. Stonehenge is the most familiar of these megalithic monuments but in fact represents only one of many similar sites. Who were the people who built these monuments? Why were these stones significant to them? *Sacred Sites of the Knights Templar* examines sacred megalithic sites across the globe such as Stonehenge and Rennes le Chateau revealing the astronomical significance of these sites as well as the secrets that significance bore to the Knights Templar. This revolutionary book offers a new explanation for two main subjects: The distribution and meaning of the megalithic monuments of Europe which were constructed to commemorate astronomical events. Evidence for a continuing and hidden philosophy based on ancient astronomy maintained in secret by the Knights Templar and in turn by the Freemasons. The author offers theories regarding these sites: their meanings, their secrets, their lasting impression on the Western World and their sacred symbolic influences on Freemasonry throughout history.

The Origins of Freemasonry Margaret C. Jacob,2016-10-18 Can the ancestry of freemasonry really be traced back to the Knights Templar? Is the image of the eye in a triangle on the back of the dollar bill one of its cryptic signs? Is there a conspiracy that stretches through centuries and generations to align this shadow organization and its secret rituals to world governments and religions? Myths persist and abound about the freemasons. Margaret C Jacob notes: But what are their origins? How has an early modern organization of bricklayers and stonemasons aroused so much public interest? In *The Origins of Freemasonry* Jacob throws back the veil from a secret society that turns out not to have been very secret at all. What factors contributed to the extraordinarily rapid spread of freemasonry over the course of the eighteenth century and why were so many of the era's most influential figures drawn to it? Using material from the archives of leading masonic libraries in Europe Jacob examines masonic almanacs and pocket diaries to get closer to what living as a freemason might have meant on a daily basis. She explores the persistent connections between masons and nascent democratic movements as each lodge set up a polity where an individual's standing was meant to be based on merit rather than on birth or wealth and

she demonstrates beyond any doubt how active a role women played in the masonic movement

The Templar Revelation Lynn Picknett, Clive Prince, 1998 In the course of their investigations into Leonardo da Vinci and the Turin Shroud Lynn Picknett and Clive Prince found clues in the work of the great Renaissance artist that pointed to the existence of a secret underground religion More clues were found in a twentieth century London church These were the beginnings of a quest through time and space that led the authors into the mysterious world of secret societies and such bodies as the Freemasons the Knights Templar and the Cathars and finally back to the ideas and beliefs of the first century AD and a devastating new view of the real character and motives of the founder of Christianity and the roles of John the Baptist and Mary Magdalene They reveal nothing less than a secret history preserved through the centuries but encoded in works of art

and even in the great Gothic cathedrals whose revelation could shake the foundations of the Church
