

THE CORE CLASSROOM MANAGEMENT PHILOSOPHY

1 Rules & Consequences

A great rule of thumb is to have 5 or less rules and consequences that are precise and easy to understand!

2 Procedures, Policies & Systems

Vital to the running of your classroom and should be specific and clear!

3 Organization

Classroom AND teacher organization is a MUST! Disorganization is the quickest way to sabotage classroom management!

4 Student Engagement & Rapport

Empower your students and the management issues will dissipate

5 Teacher Self-Care

Self-care is VITAL! If you are not at your best, it can impact the classroom, but more importantly, your life.

6 Consistency

The more inconsistent you are, the less students will follow rules, procedures, policies & systems!

Secondary Classroom Management:

Secondary Classroom Management Carol Simon Weinstein, 1996 This text is a companion to Weinstein and Mignano's Elementary Classroom Management. The book is a core text in classroom management courses for secondary majors and can be assigned with the elementary text for courses enrolling both elementary and secondary majors. Like its companion volume, it combines what research has to say about effective classroom management with practical knowledge culled from real teachers at different grade levels and in different subject areas. This is done by integrating into the research discussions case studies of four practising teachers. The research discussions comprise approximately two thirds of most chapters and the case studies one third.

All the examples and cases are at the middle or secondary school level. The content is so organized that it can be readily applied by new teachers to their classrooms.
