Secret Of The Woods:

Secret of the Woods J. William Long, 2007-08-01 Voyage to Himavat Navdeep Jethi, 2022-01-06 The one who is born has to die Is it applicable to human existence and the blue planet on which we live I am Shankar the ancient sailor Once upon a time when there were no Himalayas or the holy Ganga when even the humans were not the masters of the earth we had to escape towards a new destination in a vast ocean during the great war of nature and its creature to build the youngest mountain of the world But the voyage of life is not over yet as two new species are already evolving to replace humans after their extinction from the earth Vaidyanath a snow white physician of secret woods has declared me a peace warrior and a researcher of a secret to save the existence of the human race on this earth Will it be possible for me First of all I have no desire to be a saint or Baba and secondly I have little knowledge about pralaya If the world is proceeding to a destructive war what can a mortal human do about it Especially if he is not a politician baba or Superman Everything is unclear This voyage was not set in an ocean but in this new mortal body to search for the true meaning of being alive **Secret in the Woods** ,

(William Joseph) Long, 2018-06-28 Secret of the Woods by William J William Joseph Long This little book is but another chapter in the shy wild life of the fields and woods of which Ways of Wood Folk and Wilderness Ways were the beginning It is given gladly in answer to the call for more from those who have read the previous volumes and whose letters are full of the spirit of kindness and appreciation Many questions have come of late with these same letters chief of which is this How shall one discover such things for himself how shall we too read the secrets of the Wood Folk There is no space here to answer to describe the long training even if one could explain perfectly what is more or less unconscious I would only suggest that perhaps the real reason why we see so little in the woods is the way we go through them talking laughing rustling smashing twigs disturbing the peace of the solitudes by what must seem strange and uncouth noises to the little wild creatures They on the other hand slip with noiseless feet through their native coverts shy silent listening more concerned to hear than to be heard loving the silence hating noise and fearing it
