Secret Burial:

The Private and Secret Burial Ground of the Oratory. Rejoinder to the Manifesto of Dr. Dalgairns, Etc Alfred SMEE (F.R.S., Surgeon to the Bank of England.),1864 **The Secret Cemetery** Doris Francis, Leonie Kellaher, Georgina Neophytou, 2020-07-12 Burial sites have long been recognized as a way to understand past civilizations Yet the meanings of our present day cemeteries have been virtually ignored even though they reveal much about our cultures Exploring an extraordinarily diverse range of memorial practice Greek Orthodox Muslim Jewish Roman Catholic and Anglican as well as the unchurched The Secret Cemetery is an intriguing study of what these places of death mean to the living Most of us experience cemeteries at a ritualized moment of loss What we forget is that these are often places to which we return either as a general space in which to contemplate or as a specific site to be tended These are also places where different communities can reinforce boundaries and even recreate a sense of homeland Over time ritual artefact and place shape an intensely personal landscape of memory and mourning a landscape more alive more actively engaged with than many of the other places we inhabit **Death and Burial in Medieval England** Christopher Daniell, 2025-12-02 This volume offers readers a comprehensive and vivid picture of medieval death and burial in England bringing the fascinating beliefs and rituals surrounding mortality into sharp focus Death had a pervasive presence in daily medieval English life finding expression in monuments literature and art This book expertly weaves together analysis of historical archaeological and literary sources to provide a uniquely interdisciplinary look at the entire phenomenon Now in its second edition Daniell's book incorporates the latest findings derived from DNA and isotope analysis providing readers with a case study of the discovery and results from the skeleton of Richard III New chapters examine deviant burials and the role of revenants and ghosts whilst the final chapter introduces new theories regarding the Black Death's transformative societal impact the heightened desire for small group structures such as nuclear families or guilds and the increased centrality of the human body in religious and artistic representation This book is of value to students scholars and anyone interested in the history of death archaeology anthropology and medieval English life and ritual *The Secret History of the Oxford Movement* Walter Walsh, 1899 Tecumseh's Bones Guy St-Denis, 2005 A historical mystery about the deception behind the death burial and legacy of the great Shawnee chief Tecumseh **Rethinking the Gulag** Alan Barenberg, Emily D. Johnson, 2022-03-01 The Soviet Gulag was one of the largest most complex and deadliest systems of incarceration in the 20th century What lessons can we learn from its network of labor camps and prisons and exile settlements which stretched across vast geographic expanses included varied institutions and brought together inmates from all the Soviet Union's ethnicities professions and social classes Drawing on a massive body of documentary evidence Rethinking the Gulag Identities Sources Legacies explores the Soviet penal system from various disciplinary perspectives Divided into three sections the collection first considers identities the lived experiences of contingents of detainees who have rarely figured in Gulag histories to date such

as common criminals and clerics The second section surveys sources to explore the ways new research methods can revolutionize our understanding of the system The third section studies legacies to reveal the aftermath of the Gulag including the folk beliefs and traditions it has inspired and the museums built to memorialize it While all the chapters respond to one another each section also concludes with a reaction by a leading researcher geographer Judith Pallot historian Lynne Viola and cultural historian and literary scholar Alexander Etkind Moving away from grand metaphorical or theoretical models Rethinking the Gulag instead unearths the complexities and nuances of experience that represent a primary focus in the new wave of Gulag studies
