Madame Blavatsky's Victorian era masterpiece is now scaled down to its essentials providing the most readable accessible experience ever of one of history's seminal occult works *The Secret Doctrine* Helena Petrovna Blavatsky's masterwork on the origin and evolution of the universe and humanity itself is arguably the most famous and perhaps the most influential occult book ever written Published since 1888 only in expensive two volume editions of some 1 400 pages it has long eluded the grasp of modern readers until now This single volume edition abridged and annotated by historian and Theosophical scholar Michael Gomes places the ideas of *The Secret Doctrine* within reach of all who are curious In particular Gomes provides a critical sounding of the book's famous stanzas on the genesis of life and the cosmos mysterious passages that Blavatsky said originated from a primeval source and which form the heart of *The Secret Doctrine* Gomes scrupulously scales down the book's key writings on symbolism to their essentials and offers notes and a glossary to illuminate arcane references His

historical and literary introduction casts new light on some of the book's sources and on the career of its brilliant and elusive author one of the most intriguing personages of the nineteenth century At once compact and representative of the work as a whole this new edition of *The Secret Doctrine* brings unprecedented accessibility to the key esoteric classic of the modern era

The Political Economy of Heaven and Earth in Ghana

Charles Prempeh,2023-09-30 In March 2017 the president of Ghana Nana Addo Dankwa Akufo announced his intention to build a national cathedral to the people of Ghana The announcement elicited watertight counter arguments that morphed into two a priori re litigated assumptions First Ghana is a secular country and second religion and state formation are incompatible Informed by a frustrating paradox of an overwhelming religious presence and concurrent pervasive corruption in the country public conversation reached a cul de sac of conviction without compromising In *The Political Economy of Heaven and Earth in Ghana* Charles Prempeh deploys the national cathedral as an entry point to provide both

interdisciplinary and autoethnographic understanding of religion and politics The book shows the capacity of religion when properly cultivated and curated as a worldview to answer the why questions of life will foster personal moral collective and ontological responsibility All this is needed to stem the tide against corruption commodity fetishism environmental degradation illegal mining galamsey heritage destruction and religious exploitation Prempeh recuperates a historical fact about the mutual inclusivity between religion and politics politics helping to manage differences while religion provides a transcendental reason for unity to be forged for human flourishing Separating the two is therefore ahistorical and an obvious threat to the intangible virtues that answers why and how questions for public governance
